OxiClean (2000)

<https://www.youtube.com/watch?v=ZTpXh33Mbeg>

Hi, Billy Mays here for Oxiclean, the stain specialist. Powered by the air you breathe, activated by the water that you and I drink. It's mother nature approved, and it's safe on your colors and fabrics. Use it on carpets. Oxiclean seeks out organic stains. Pet stains, food stains, they get down into the matting, into the padding. It even takes red wine and grape juice out of white carpeting. It cleans, it brightens, it eliminates odors, all at the same time. Don't just get it clean, get it oxiclean. Make a paste. Make it ten times as powerful. The longer you let it set, the easier it is. It'll whiten your grout, and get rid of your toughest stains. Sometimes soaking is the solution. If you use bleach, you ruin your clothes. Oxiclean won't hurt the material. Even lace. It has the power of bleach, without the damaging side effects of chlorine. When your laundry detergent just isn't enough, super charge it with oxiclean. One scoop in every load of laundry: it'll make your whites whiter. It'll make your brights brighter. As a stain remover, it's the best. Grass stains. Clay stains. Long live your laundry. Oxiclean, the stain specialist. We've sold millions of our two and a half pound tubs for forty dollars. But if you call now, we'll cut the price in half. Only nineteen ninety five. You'll also receive the squirt bottle, and the super shammy absolutely free. If you call during this show, you'll receive a bottle of our world famous orange clean. Made with pure orange oil. It cuts through the grease and the grime. Whether it's baked on in the oven, or caked on the stove. You get all this for just nineteen ninety five, but call in the next twenty minutes and we'll super size your oxiclean from a two and a half pound tub to a whopping six pound bucket. Nearly triple the amount, but you gotta call now. Here's how to order.

Zorbeez

<https://www.youtube.com/watch?v=l25oCWDHnQI>

If you got a real mess, and want to clean like the pros, then you gotta see this. Hi, Billy Mays here with Zorbeez, the most absorbent material I've ever used. It has the strength and the muscle to pick up and hold over twenty ounces of liquid. Look at this. Zorbeez attracts liquid like a magnet. It doesn't matter if it's coffee, soda, even red wine. Watch as its powerful vacuum action pulls and cleans the stain from out of the carpet, just that quick. The secret's in the X-twenty-seven fiber technology, making zorbeez over twenty seven times more absorbent than cotton. Forget towels that just drip, and unlike sponges that smell, zorbeez is odor free, and leaves a path of clean. Now you can clean and dry, and never leave anything behind. You'll be amazed at just how much they absorb, and they're machine-washable. Dry your entire car, even your dog. Use any cleaner for streak free windows. An average family uses up to two rolls of paper towels every week. That's cash in the trash. Save money, and even help save the environment.

Engrave-It

<https://www.youtube.com/watch?v=hAZXLAB7Y3M>

Tired of people borrowing your things, then forgetting they're yours? Wish you had a way to instantly identify things that belong to you? Hi, Billy Mays here for engrave-it, the cordless engraving tool you use like a pen to permanently engrave anything you own. Use engrave-it for your expensive tools, so you'll never have trouble claiming what's yours. Etch your name on items that look the same, and avoid annoying mix-ups. If you can write your name, you can easily engrave-it. Make an id tag for your pets. Or mark your office supplies and keep them from disappearing. Do you have a drawer full of keys, but don't know what they open? Now you can easily mark all your keys and make them easy to find. Use it to mark lunch boxes and bicycles. Or label all your power tools. If something's lost, it can't be returned. Remember: engrave-it and save it. Use engrave-it with our mistake-proof stencils, and you can make

your own professional-style engravings. The secret is the hardened carbide oscillating micro tip. It has the power to easily etch hardened steel, yet it's safe to the touch. Engrave-it works on almost any surface. It gives you the power and the precision to neatly personalize your favorite items. And if you're a crafter, it's the ultimate tool. Other engraving tools can cost as much as sixty dollars. But call now, and you'll get the professional engrave-it for only fourteen ninety nine. It comes complete with an extra tip, and three stencils to get you started, plus our money back guarantee. But call right now and we'll double this entire offer including our guarantee. Mighty Putty

<https://www.youtube.com/watch?v=3vVTyBMFo3M>

Hi, Billy Mays here for mighty putty. The easy way to fix, fill, and seal virtually anything fast, and make it last. Mighty putty is not a glue, but a super powered epoxy that you can mold to any shape, and apply directly to most any surface for an ever-lasting bond. Ordinary epoxies are a mixing mess. With Mighty putty, you just cut like dough, simply knead to activate, apply and let dry. It has the muscle to support up to three hundred and fifty pounds. Rebuild a damaged tool to work like new, or make car repairs and save money. Drills, bolts, and screws can ruin your projects. With mighty putty, you just cut, activate, and apply. Here's something you can't do with glue: mighty putty seals leaks instantly. Use it on pipes and faucets for a permanent seal. As you knead, it activates, turning from green to white, to show it's ready to hold on tight. IT HAS THE STRENGTH TO PULL THIS FULLY LOADED, EIGHTY THOUSAND POUND TRACTOR TRAILER! NOW THAT'S THE POWER OF MIGHTY PUTTY. Whether it's tile to wood, metal to glass, any job big or small, mighty putty repairs them all. Fill cracks in ceilings, walls, and floors. Mold it to furniture, sand, and paint for a seamless repair. And it's ideal for all your crafting projects. There's nothing you can't do with mighty putty. Call now and we'll send you two powerful sticks of mighty putty for only nineteen ninety nine. But through this exclusive tv offer, we'll double it and send you two more sticks free. Mighty putty will pay for itself the very first time. But I'm not done yet. Mighty Tape

<https://www.youtube.com/watch?v=OvuN1JK4FYU>

Let's face it: stuff breaks, wears, leaks, and that costs money. Before you call a pro, let mighty tape save you dough. Hi, Billy Mays here for mighty tape - the flexible power wrap that seals, repairs, and saves you money. Mighty tape is no ordinary tape, but a self-fusing silicone that creates an air-tight, water-tight seal in seconds. Regular tapes are a sticky mess. Mighty tape has no sticky adhesive. Just stretch, wrap, and it fuses fast. Use it to fix a leaky water pipe without calling a plumber. Don't throw away an expensive appliance. Mighty tape safely repairs all your power cords. The secret is in the stretch. As you wrap, it fuses to itself, then shrinks back to hold on tight for a permanent seal. Now you can instantly repair a vacuum cleaner hose. Mighty tape insulates, protects, and even withstands this corrosive acid. Amazing. It works in freezing cold to repair an air conditioner, or intense heat to fix a blown radiator hose. Create new grips on tools, handlebars, and clubs. Outside, fix extension cords, sprinkler lines, or garden hoses. Use mighty tape to mend broken branches, stake plants, or string vines. We even repaired this punctured air hose. Even under pressure it has the strength to bring this diver back from the ocean depths. Now that's mighty tape to the rescue. With every stretch, wrap, and repair,

you'll save hundreds. Call now and we'll send you two rolls of mighty tape for nineteen ninety nine. That's enough to wrap up to sixty feet. But to seal the deal, we'll triple the offer and send you six rolls of mighty tape for the same low price of nineteen ninety nine. Order now.

Zorbeez new

<https://www.youtube.com/watch?v=CFdjbKDTTJU&list=PLB257F264F99BF49C&index=10>

Hi, Billy Mays here for the best deal on the original zorbeez, the most absorbent material I've ever used. You can go over the hood, the roof, and the trunk of your car before you have to ring them out. Coffee, tea, milk, or wine, it doesn't matter. It picks it up just like a vacuum. Twenty times its own weight in liquid. Here's 20 ounces. Look at this. Sponges drip. I don't know what's so handy about these. Watch the powerful vacuum action, and look at this: there's no drips, and when it comes time to ring it out, just give it a little twist. They get dirty, throw em in the wash. They last for years. Did you get that camera guy? You know those sweaters you can't put in a dryer? Roll em up in a zorbeez, and wear em the same day. Zorbeez is the best thing to dry your car, truck, boat, even your dog. For carpets, it's the best. Do you have any drinking friends? Maybe you have a golden reliever. When you get a spill like this, you reach for paper towels, but they don't work. The problem's underneath. Place a zorbeez over the spill, and apply pressure. It draws the spill like a vacuum from the bottom, right to the top. Here's your spill, but underneath the spill is gone. Zorbeez will save you a hundred dollars a year on paper towels. Call now and we'll send you not one, but two of our giant zorbeez plus two of our kitchen size for just ten dollars. But if you spend ten dollars with me today, I'll spend it right back with you and send you a second set (just pay separate shipping and processing). That means you get eight zorbeez: four giant and four kitchen size for only ten dollars. Separate shipping and processing applies for each item order. Here's how to order,

Hi, Billy Mays here for the grater plater. It's no ordinary plate. Watch this. Grate cheese with ease - parmesan, romano, even asiago. There's no wrong way to use it. Back and forth, side to side, round and round. All the cheese stays in the plate. Pass it around the dinner table and grate as you go. Use it for pasta, pizza, or salads. For zest, it's the best. Whether it's a lemon, lime, or orange, you get perfect results each and every time. You can't mince garlic in one of these, and if you use a press, it's a mess. Watch this: you puree garlic fast, quick, and easy, and all the natural juices stay right in the plate. It gives you the consistency of garlic butter without the butter. Add a little olive oil and herbs, and it becomes a dipping plate. Soft enough for little hands, it won't even pop a balloon. The secret's the hardened, tempered ceramic design that never dulls. It's triple glazed so nothing sticks. Don't cut a finger trying to grate ginger with one of these. The grater plater is the best ginger grater. There's no strings, and all the essence stays right in the plate. Use it for baking, chocolate, cinnamon, even coconut is no match for the grater plater. Call now and we'll send you the grater plater for just ten dollars. But I'm just getting started. With every order, we'll include the roll and peel. Take a clove, and give it a roll. Peel all the garlic you like without ever touching it. You'll even get the gathering brush to mix all the flavors together. and top your favorite foods. But call right now, and we'll double this entire offer absolutely free (just pay separate shipping and handling). You get it all - a huge value all for just ten dollars. Here's how to order.

Are you on the ball? It's new oxiclean detergent. Get on the ball, and you'll never have to pour or measure detergent again. Just place the oxiclean detergent ball in the blue toss-and-go dispenser. Just toss, and go. It stays in your washer while it cleans over twenty-five loads. Laundry just got easier. That's right. It's so easy, even your kids can do laundry. Its patented formula delivers oxygen and detergent throughout your wash cycle, whitening and brightening your clothes. I know what you're thinking: what about the rinse cycle? Watch this. Ordinary detergent uses lots of suds, but oxiclean detergent cleans without leaving a soapy residue. I'LL PUT 'EM BOTH IN THE RINSE CYCLE! Ordinary detergent still leaves suds, while oxiclean detergent always rinses clean. A year's supply of powder or liquid take up all this space, and weigh over sixty pounds. A year's supply of oxiclean detergent takes up no space at all. Four detergent balls, the toss-and-go dispenser, a huge value, and enough to do over a hundred loads of laundry, for only nineteen ninety nine. So get on the ball; the oxiclean detergent ball. I guarantee it.

The Quick Chop

<http://www.youtube.com/watch?v=JpqiyFPdHZ4>

<https://youtu.be/uEM-4dvl22s>

<https://youtu.be/6JDVsiDk-XM>

Hi, Billy Mays here for the original quick chop, the fastest, easiest, safest way to chop mince or dice any vegetable – guaranteed. Here's how it works: Just place the vegetable on the board, give it a tap and you've got finely shredded cabbage in seconds for crunchy coleslaw. If you like salads, put all your ingredients in at the same time. Chicken salad, ham salad, even shrimp salad is all done with just a few taps. It has the power to chop nuts – almonds, walnuts, pecans. Use them for toppings for ice cream Sundays. Quick chop even has the muscle to chop ice ... amazing! Make delicious, mouth-watering salsa in seconds. It even works on tough vegetables like potatoes. Quick chop peels and chops garlic with just one tap. Keep tapping for freshly minced garlic. The secret is the six carbon steel blades, combined with the rotating action. Each time you tap, it rotates and chops on a different angle – and never misses a thing. One tap and you've got sliced onions. A few more taps for diced onions. Keep tapping for finely minced onions. It's faster than a knife and the only tears you'll cry are tears of joy.

Clean-up is a breeze – just rinse it or put it in the dishwasher. Call now and you'll get the original Quick Chop with rotating action for only nineteen ninety nine. As a special bonus, we'll also include our Quick Grater free. It comes with both coarse and fine blades, and it's the best grater you'll ever use for grating all types of cheeses. But to make this the best deal on TV, we'll double the offer. You'll get a second Quick Chop and a second Quick Grater. Just pay separate processing and handling. That means you get two of the original quick chops and two of the quick graters for only nineteen ninety nine. Here's how to order.

Dual Saw

<https://www.youtube.com/watch?v=xFGBQyeyXa8&list=PLB257F264F99BF49C&index=35>

<https://youtu.be/4SdFMCFJI08>

Hi, I'm Billy Mays. The dual saw is no ordinary saw. It uses counter-rotating technology to cut through all types of material with unmatched safety, speed, and precision. It's a process that took eight years and cost millions of dollars to develop. Until now, this technology has only been available for industrial purposes. The dual saw is built tough, but it's the way that it cuts that counts. Watch this. Like a train on a track, it cuts a perfect line every time. You'll also notice that I cut the middle of the wood, and I went backwards and forwards. No other saw can do that. Look at the speed. Look at it cut a perfect line through corrugated metal. Other blades would bind and kick. Sully, that is impressive, but I'm gonna take it one step further, and use it on diamond plated aluminum, one of the hardest materials to cut, period. Take a look. No other saw in the world can cut in both directions like this. The dual saw cuts through the wood and the nail like it isn't even there. We've shown you some amazing demonstrations, but just to make it clear, it's important to understand that this is no ordinary saw. Watch what I'm about to do.

There's no kicks, no binding, you get a clean, smooth, and accurate cut each and every time. But what if you have to cut marble, granite or stone? The dual saw has optional industrial diamond blades that can cut through all kinds of stone. You know what they say: diamonds are forever. Well so is the dual saw. Matt's been a contractor for over twenty years. He's gonna attempt to crack the safe with this grinder. Ok, let's crack the safes. Matt, you're a big strong guy. What happened? That was impressive. Crystal was able to go back and forth with the dual saw like a hot knife through butter on something as tough as a safe. That's the power and precision of the dual saw. Great job you guys. As if cutting through a car isn't tough enough, we made it even tougher. Earlier today, we welded the inventor Frederick into a diamond plated, reinforced box. Start cutting. Wow, what an entrance. That was unbelievable Frederick. Frederic, tell us how you came up with the dual saw. Now we're ready to see the dual saw in action. Are you ready Frederic? Start cutting. That's the power and the precision of the dual saw. Whether you're cutting cars or working on home improvements, the dual saw is the one tool you won't want to be without. That's why we're here at the big three truck salvage with Wes and Paul. They're in the scrap metal business. Check this out. So don't just take it from us, take it...

Dual Saw (continued)

<https://www.youtube.com/watch?v=nyQM1fDhYjk>

When it comes to dropping a sink into a countertop, the dual saw is the only tool you'll need. Watch this. Here's a job that actually takes a couple of different tools to get the job done right. A drill, a jigsaw, even a sander. To drop a sink, the dual saw takes the place of all these tools and then some. The blades sink right into formica without any damage and without any kick. I could easily move both forwards and backwards on the cut, and I can make precision straight lines every time. The dual saw gives you professional results each and every time. So no matter what you need to cut... The dual saw is not only the safest, but is one of the most versatile saws you'll ever use, and it'll replace all these, and because of the counter-rotating technology, you'll be doing jobs that you thought once were impossible... and you're also gonna meet the inventor of the dual saw, and he's actually going to attempt to cut this car in half.

Dual Saw (continued)

The dual saw is built tough, but it's the way that it cuts that counts. Watch this.

Billy Mays talks about the awesome DualSaw

<https://www.youtube.com/watch?v=LKIA4Rws690>

I'm going to be cutting up everything; everything but bad habits and taxes... Anthony Sullivan. Sully Sullivan. Terrific. It's always terrific to Miami, and especially when you have a winner like the dual saw, with counter-rotating technology, you can plunge cut, you can cut things you'd never dream of. In fact, in these economic times - tough economic times- we're forced to do things ourselves, the dual saw makes it easy. It really does, because now you can do things - jobs - that were once impossible. Now they're easy with the dual saw.

Impact Gel

<https://www.youtube.com/watch?v=v-KkSN6-A7c&list=PLB257F264F99BF49C>

<https://youtu.be/klmHNIqPUS0>

Are you on your feet all day? Does the constant pounding cause your ankles, knees and back to ache? Hi, Billy Mays here for the world's greatest insole, Impact Gel. Why am I smashing my hand with this hammer? To show you the amazing protection you get from Impact Gel. And this hammer is real.

The same gel technology is used in our Impact Gel insoles. If you have sore, tired, aching feet, Impact Gel absorbs more shock and pressure than other insoles. Unlike regular insoles that break down over time, Impact Gel is injected into the areas that provide pressure relief where you need it most – the heels and balls of your feet. The gel never breaks down. And when impact occurs, the insole soaks up the shock and the force now ripples throughout the gel pads. No regular insoles can do that. Even after continuous pounding, these M&M's don't break. Imagine the relief you'll feel in all kinds of shoes. They even work in cowboy boots. I use them, and they work. Talk about shock-absorbency ... I'm going to run over my hand with this 6,000-pound car. That's the power and protection of Impact Gel. Whether you're a runner, a professional or a stay-at-home mom, you deserve the comfort of Impact Gel. Stop spending hundreds on inferior insoles. Remember, nothing absorbs a shock quite like Impact Gel. Call now and get a pair of our Impact Gel insoles for only nineteen ninety nine. But that's not all. We'll also send you a pair of our Impact Gel inserts free. They're perfect for dress shoes and casual wear. But I'm still not done. Call right now and we'll double the offer. Just pay separate shipping and handling. That's right, you'll get two sets of insoles and two sets of inserts, a ninety dollar value, all for only nineteen ninety nine. Here's how to order.

Green Now

<https://www.youtube.com/watch?v=64ACXHBiYS4>

Are water restrictions keeping your lawn down and brown? Does your lawn have more brown spots than green? Hi, Billy Mays here for Green Now, the easy to use lawn color and fertilizer that covers up brown spots with just one spray, so it sprays on green, and stays green now. The secret's the eco-friendly formulation that not only restores the gorgeous green color, but it also fertilizes to promote new growth. It sprays green and stays green. If your lawn is sun damaged, under watered, or has drainage problems, green now repairs damage caused by mold, mildew, even grubs and bugs. It works on any type of grass: blue grass, fescue, rye grass, Bermuda, even saint Augustine. If you have a golden reliever, you know the damage pet urine can cause. Green now is the ultimate solution, and it's safe around pets and children. Use green now to add curb appeal to a home you're selling, or spruce up your lawn to make it look like this. You could easily go from this to this with green now. And the best part - it's not just for grass. Use it on hedges, shrubs, and bushes to give them that fresh nursery look. Every can of green now will repair up to a hundred brown spots, and it dries instantly so there's no mess, guaranteed. Your lawn will be gorgeous, and your neighbors will be green with envy. Call now, and get a can of green now for only fourteen ninety five. As a special bonus, we'll double the offer, and give you two cans for the same low price, so if your lawn is brown yesterday, it could be green again with green now. But order right now, and we'll supersize this entire offer. That means you get two extra-large cans of green now - enough to cover up to four hundred spots - all for just fourteen nintety five.

Vidalia Slice Wizard

<https://www.youtube.com/watch?v=SG39UAd95bQ&list=PLB257F264F99BF49C&index=39>

Dull knives can slow you down in the kitchen. Food processors take up too much time to set up and clean. Are you tired of shedding tears just to chop an onion? Hi, Billy Mays here with another innovative tool, this time for the kitchen. Introducing the Vidalia slice wizard. It's seven different kitchen tools, right in one machine. What makes the Vidalia slice wizard safer than a knife? The safety holder. It keeps your fingers away from the blade with six stainless steel prongs that grab and hold any size fruit or vegetable. And right down to the very end, there's no wasted food. When you change the insert, you change the machine. Now you can mince an onion in seconds. aJulienne carrots and zucchini for salad and stir fry. Make shoestring potatoes for the kids. Even chop cabbage for colorful cole slaw. Try doing all that with a knife. With razor sharp, stainless steel blades, whether you slice thick or thin... perfect slices every time.

If you like French fries like I do, watch this. With another quick switch of the blade, now you can make mountains of French fries in seconds. You can chop your tomatoes and onions to make thick chunky salsa, salads, tacos. If you only use this to make a vegetable tray, it'll pay for itself the very first time. Call now, and you'll receive the Vidalia slice wizard complete with all the insert blades for only nineteen ninety-nine. We'll also include the insert storage rack to keep all your inserts organized. And as a special bonus, we'll include our Vidalia chop-it, the fastest and easiest food processor you'll ever use guaranteed. A twenty dollar value yours free. Just pay separate shipping. You get it all, an eighty dollar value for only nineteen ninety-nine. Here's how to order.

Vidalia Chop It

<https://www.youtube.com/watch?v=XAOQOKvXZDI>

Food prep used to take up hours of your precious time. Not anymore. Hi, Billy Mays here for the Vidalia chop it - the fastest and easiest food processor you'll ever use guaranteed. Potatoes, peppers, and onions - chop it and you'll have hash browns before you smell the coffee. Chop carrots coarse or fine for salad and stir fry. How bout celery? Just chop it. Faster than a knife, perfect every time. Chop tomatoes for salad or tacos without making mush. The secret is the three razor sharp, stainless steel blades combined with the gears in the lid. When you turn the handle once, the blades go around four times. That's like cutting with twelve knives. Here's something that's nearly impossible to make in a food processor or blender: homemade salsa. Add your tomatoes, onions, bell peppers, garlic, cilantro, a little bit of lime, and if you want to make it hot, jalapeno pepper. Make delicious, mouthwatering salsa in seconds. Without the preservatives you find in a jar. Walnuts, cashews, pecans - chop it for all your baking. Blend cookies and ice cream for your favorite desert. With the Vidalia chop it, you can mince as little as one or two cloves of garlic or fifty at a time. You can mince onion without crying faster than a knife, perfect every time. Call now and get the Vidalia chop it along with the recipe book for only nineteen ninety nine. We'll also include a set of whipping blades free. Whip up eggs for omelet, make your own whipped cream for all your dessert toppings. Even mix up pancake batter. We'll even send you our salad spinner. Spin dry lettuce and vegetables. But call we'll double this entire offer absolutely free. That's an eighty dollar for only nineteen ninety nine. Here's how to order.

The Gopher

<http://www.youtube.com/watch?v=Cx3ZpRL0x7g&NR=1>

Hi, Billy Mays here for The Gopher, the handy helper that reaches so you don't have to. Use it for reaching up high or for picking up down low. In the laundry room, it's the best! It will get that odd sock in an impossible-to-reach area. Any object, big or small, it grabs, fits and lifts them all. If you can't get to it, then the Gopher is great. Grip and lift in one easy motion. With just one finger, The Gopher locks on so you could pick up, take out and put back without any effort. The secret is the suction action, combined with the easy-locking handle that gives you the power to reach without stretching or bending. Under the bed or under the sink, just squeeze and retrieve with one simple step. It picks up what you don't want to touch, and it's much safer than the stool or a chair. Use it outside in the yard. It takes the bending and reaching out of your daily chores. Whether you're small or tall, the Gopher has the power to pick up and reach it all. It's precise enough to pick up this paper clip, yet strong enough to hold this five-pound bag of sugar. If you own a car, truck, boat or RV, it's the perfect companion. And when you're done, it folds for easy storage. When something's out of reach, just gopher it. Similar products sell for as much as thirty five. Call now and you'll get not one, but two Gophers for only nineteen ninety nine. But call in the next five minutes, and we'll include the MagnaGopher absolutely free. The powerful magnetic tip is perfect for picking up keys and other hard-to-reach metal objects. That means you'll get two Gophers and the MagnaGopher - a whopping eighty dollar value all for just nineteen ninety nine. But you got to call now. Here's how to order.

Samurai Shark

<http://www.youtube.com/watch?v=xPh-qgW8L4w>

Does your kitchen have a drawer full of dull knives? There's nothing more frustrating than trying to slice a ripe tomato with a dull knife. Hi, Billy Mays here for the HomeSmart Samurai Shark, the ultimate sharpening tool that puts a razor's edge on dull knives, tools, scissors or just about anything with a cutting blade. The secret to the Samurai Shark are the tungsten-carbide sharpening blades, along with their unique angle that give you a precision edge each and every time. Countertops, cutting boards, plates and dishes ... these are the things that dull your knives. This knife is so dull, it won't even cut this sponge. But with the Samurai Shark, it's as easy as one, two, three and you get professional results each and every time. The retractable sharpening blade allows you to easily sharpen serrated edges. No other sharpener does that. When it comes to sharpening scissors, ordinary sharpeners are tough to use. But whether it's scissors, tools or knives, big or small, the Samurai Shark sharpens them all. If you're an outdoorsman, take it with you when you go hunting or fishing to keep those filet knives razor sharp. It fits in your glove box, tool box, even your tackle box. We'll send you the original Samurai Shark for only ten dollars. If it's not the easy sharpening tool you've ever used, simply send it back. But through this exclusive TV offer, we'll send you a second Samurai Shark absolutely free.

Samurai Shark 2

<https://www.youtube.com/watch?v=RGBzIVXIAqk>

What makes the samurai shark different from any sharpener you've ever used? The secret's the tungsten-carbide sharpening blades, along with their unique angle that give you a precision edge each and every time, guaranteed. Watch as I deliberately dull this knife on a steel hammer. Don't try this at home. Watch this. This is steel against steel. Now the wooden handle, this could be ham bone, lamb bone, they'll dull your knives as well. This knife is so dull, it won't even cut this sponge. But with the samurai shark, just lay it right across your countertop, and it's as easy as one, two, three, and you're done. Watch this. Watch as this knife goes right through this sponge like a hot knife through butter. That's the power of the samurai shark.

Billy Mays OxiClean™ Versatile Stain Remover Commercial

<https://www.youtube.com/watch?v=2PU8ZxQj7eE>

It's amazing. Watch how oxiclean unleashes the power of oxygen, making tough stains disappear like magic without fading or bleeding the colors. For pet messes, oxiclean is a must. It goes deep down below the surface to get rid of the stain and the odor. Have you ever spilled chlorine bleach on your colored clothes? Well oxiclean is tough on stains without the damaging effects of chlorine bleach. If you save one pair of jeans, then oxiclean has paid for itself. Some clothes say no chlorine bleach, but oxiclean safely removes the stain even on baby's clothes. It's the stain remover for the things that you love. Add a scoop of oxiclean to every load of laundry. It'll boost the stain removing power of your detergent. Don't just clean it; oxiclean it.

Got extreme stains? Then you need oxiclean laundry stain remover. Even fruit juices and cola come out right before your eyes. It's chlorine free, so you can trust it on all your clothes. Oxiclean laundry stain remover - it gets the tough stains out.

Oxiclean MaxForce

<https://www.youtube.com/watch?v=pMhaa2Ylm74>

Want the best in stain removal? Try new oxiclean maxforce. With four in one power to tackle more dried in stains than other sprays. Works better than yours or your money back. Oxiclean max force gets the tough stains out.

Oxiclean 4 (HSN)

<https://www.youtube.com/watch?v=zwtL4MQoKRw>

It's powered by the air you breathe, activated by the water that you and I drink. In your laundry, the power of bleach, but it's safe. Watch this: half a scoop. This two and a half pound tub will do seventy five loads of laundry, so it's gonna save you a lot, and not weaken the fibers. You can let things soak overnight. It is not magic. Ladies and gentlemen, look at this. There goes the whites, they get whiter. Look at the brights. They get brighter. Now start thinking about this. Mix it up in a bucket; a two and a half gallon bucket. You can wash things around the house - aluminum siding, vinyl siding. If you have a boat, the best. That white sock is not hurt by the reds. Look at this. The colors... anything that is color fast. And you know what, You can use it on jewelry, things like that. It works over, and over, and over again.

Want to know the best way to get your stains out in the wash? Well, America's leading washer brands, Maytag and Whirlpool, recommend oxiclean, and now have a dispenser for oxiclean, cause they know it's better at getting out the spills, the spots, and the splatters. Whether they're ground in, smeared on, or dried up, it doesn't matter. Oxiclean lifts away stains detergents can leave behind. Cleaner, brighter, and whiter: that's the power of oxiclean.

Oxiclean Miracle Foam

<https://www.youtube.com/watch?v=sEx7EhRXgdo>

Hi, Billy Mays here. Are you tired of all purpose cleaners that just don't seem to work? Then you need oxiclean miracle foam. Combine miracle foam with water to activate an oxygen powered foam that dissolves stains all around your house? In the kitchen, oxiclean miracle foam tackles the grease and grime on your stove. Its foaming action lifts stains off surfaces right before your eyes. It cleans where the competition fails. Watch this: the top selling all-purpose sprays won't lift this tarnish; neither does the leading abrasive cleaner. For those really tough jobs, sprinkle miracle foam directly onto a wet surface to activate, then wipe away the mess to reveal the original shine. Miracle foam dissolves stains the competition can't touch. Dried on sticky stains like juice, coffee, and wine are no match for the power of the foam. In the bathroom, its chlorine free oxygen power tackles tough, set in stains - even on textured shower floors without gloves and without harsh fumes. Add a capful to your toilet, and watch its incredible foaming action wipe out ring around the toilet in seconds. Take it outside to lift grease and oil off a garage floor. Call now and you'll receive not one, but two twenty four ounce bottles of both our new miracle foam powder, and our new miracle foam spray. Its concentrated spray foaming action dissolves grime, leaving a path of clean, beating the competition hands down. Watch its streak free formula make chrome fixtures and stainless steel appliances shine like new. It evens cleans windows without leaving streaks or smears. But call right now, and we'll supersize your offer, and we'll even include a super scrubber along with a cleaning bucket, and a tub of our world famous oxiclean all for just nineteen ninety nine. Here's how to order.

Of course it's a great idea, but I won't have to remind people to use oxiclean anymore. I'll be playing cards with the Maytag repairman. Oh, I still got a job, right?

ZORBEEZ in Miami

<https://www.youtube.com/watch?v=2gEUrzaM5SQ>

Last call for the zorbeez demonstration. Come up and get a free one. This is not shamwow, this is the original one. Welcome to Miami. Snuggle up, get to know your neighbor. This is the original zorbeez. Have a free one. Pay attention Johnny. Have a free one. If you've ever used a chamois, it's actually the back of a dead goat. It's an animal skin. Well, this is man made. It's made in Germany. You know what Vince, mine is made in Germany, but Billy Mays is made in America. This is not shamwow, forget shampoo. This is the original zorbeez cloth. This picks up twenty seven times its own weight in liquid. It doesn't matter whether it's coffee, tea, milk, or wine, Kool-Aid or orange juice. Everything goes into the zorbeez. Whatever it picks up, it holds onto. Come here Johnny. If you use sponges, they drip, ok. Let me tell you something, anyone use a sponge? They're actually like a stink bomb. Anybody ever use handy

wipes? I don't know what's so handy about those. Maybe you have a golden retrieve - a retriever, excuse me. This is over twenty ounces of liquid. Watch what I do. Just give it a little twist. You can do this repeatedly. You can't rip these, you can't tear 'em. If you get them dirty you put them in the washing machine. Hot water, oxiclean, it all gets clean right here. Watch this. Watch what I do. When you squeeze it together, see how it drinks it right up? Real quick here, one last demolition here. And thanks to livemercial here this is streaming out live. Maybe you have a drunk drinking friend. Just kidding. We got a lot of those, huh? I don't drink much, just often. But Johnny, you don't drink anymore... or any less. The best part of all, what you want to do with your zorbeez is you fold it into layers, and just use finger pressure. Coffee, tea, milk, or wine, kool-aid or orange juice, it holds twenty seven times its own weight in liquid. Like I said, if you have a nervous puppy dog, if this was a pet stain use your foot. What if it's a Chihuahua? You could hurt the little pooch, but you know what? If you have somebody that's drunk enough to spill this, put this right back in their glass. They're drunk enough to drink it. There's your spill. There's your mess. Get a free one. Have a free one. Whoa, there we go. This is the original zorbeez. Everything's free right now. You got one there. Come on in. Come on in right now. And I want to thank Johnny Mathis of livemercial. Come on over here Johnny. This is a live feed here, and I got to tell you, this guy made it happen here, and we did a lot of things here. This is cutting edge technology. Thank you, Johnny.

Ultimate Ladder part 1

<https://www.youtube.com/watch?v=SgdAnN70c6w>

Hi, Terry. It is great to be here. This is the ultimate problem solver. Introducing the ultimate ladder: eight ladders in one. Yes it will. It's the little ladder that thinks big. I'm gonna show you right here. Do you hear that sound? That's the sound of safety. When you hear that click, unclick the latches, it transforms into a different position. Here's your first position. Here you have the ultimate step ladder. It sure is. Aircraft-grade aluminum, box frame construction, This is a-rated for three hundred pounds. I feel confident up here because I have twenty-four-inch stabilizers with the rubber feet. Cause I'm not going anywhere. With ordinary ladders you don't feel confident up high. And you know what's nice about this? You could work right on wiping windows, hanging up curtains, it doesn't matter because I'm right flush up against the surface where I'm working, and I can hold it with one hand. Now that's the first position. Watch this, Terry. Remember, there's instructions that come with it. Now you have a six foot utility ladder. Absolutely. Or for something that's just out of reach. But here, this is probably the most important ladder that you'll ever use in your house, the ultimate a-frame ladder. I'm gonna show you something, Terry, because right here is the first accessory for the ultimate ladder. Take a look at this. I have two of them because most people will get two of them. These are the work platforms. I'm gonna step on up here. Step up in safety, bridge the gap. Now if I'm working up high, I can work three hundred and sixty degrees. You know, I have hands free, okay. If I'm painting, or if I'm reaching into a corner, this is perfect. I can put my paint up here, my tools up here, or if I need leverage, I can drill in a screw, and I can leverage myself. I'm not going anywhere. But you know, an A-frame ladder, a second person is usually holding the ladder. You don't have to hang on here. Step up in safety, terry. Come up here. Yes, both at the same time. Absolutely. It's A-rated to three hundred pounds. Now I'm two fifty. You know what, you're about half that, but you know what, we're a little bit over the limit, but you know what? This is perfect. Do you feel confident up here? This is the SQV of ladders. Safety, quality, and versatility equals value. You know I'm just getting started here. I'll kick that platform in. I want to show you something else, because this lightweight ladder -- it only weighs twenty-five pounds -- I want to show you how it becomes a heavyweight. Take a look at this: now I have a full-sized, twelve-foot extension ladder. You can get up to a second story window, you can clean out gutters. And how about the cat out of the tree? Things like that. Now, here's where the "V" in versatility comes in, okay? Now I have a nine foot extension ladder with a three foot standoff. You have kitchen cabinets, you can work above them, putting up the pottery, the greenery. I'm gonna show you some other uses for that ladder a little bit later on, but here's my favorite position right here. Watch this. Now, I unclick it, now I have a workstation and scaffolding. If you're a painter or a decorator, this is a dream. Take a look at this. They say a chain is only as strong as its weakest link. I'm standing right on the hinge here. Take a look at this. This is

precision-welded throughout, and it's perfect for two people. Come on up here. Terry, you will love this. Take a look at this. Confidence, box-frame construction, A-rated to 300 pounds, You can work along the wall putting up stencils and things. I want to show you a couple other uses for it, okay. Let me take the scaffolding off, okay. Now, you know, it was really easy to transform this ladder into so many different ladders, but just as easy to transform it. Take a look at this. Two clicks here, two clicks here, now I can put this right in the trunk of my car instead of on top of the car. Absolutely, easy to maneuver throughout the house. Big ladders can scratch the walls, mar the surfaces, this will not. This is the portable, durable power-house. You will love this, and let me show you real quick. Remember that click is the sound of safety. Take a look at this. Now, remember that ultimate stepladder you'll use it. If you use it every day, or only use it in that position, it would pay for itself. Here's another position I want to show you. This is an important one. Take a look at this. I lean it straight up, you hear that click? Now, take a look at that. Well, I said it's important. You can work on steps and stairs. I call this the stair climber. Terry, here's where the ultimate ladder takes on the ultimate challenge: stairs and steps. It's an impossible job with ordinary ladders. Now step up in safety. Now, I can get to that window, clean the window, do some painting, I have support. This is the SQV of ladders. Safety always first, quality, and versatility. While I'm working on steps and stairs. Down the front, and take a look at this: I have the scaffolding set up for extra safety. Now, if you're a professional, you may want to think about getting two ladders, because I have two ladders at home, this is perfect. Because look at how I have it set up here. This is a professional-quality tool., an important tool. Kick out the work platform, three hundred and sixty degrees I can work -- hanging a picture, working around hands free. Take a look: changing the light bulb, things like that. Kick out the platform back in. Why is it called the stair climber? Because it climbs stairs and steps all the way up. Ninety nine percent of the ladders out there will not perform this job. Now the impossible job is made possible with the ultimate ladder. Terry, it truly is the ultimate problem-solver. This is the little ladder that thinks big. This is the SQV of ladders. Safety, quality, versatility, equals value. It is easy. I told ya. Ultimate A-frame. I told ya. Giant twelve foot extension. Yup. You got it. That's all you got to do. It really is easy to use. We've now made it affordable for everyone to own a safe and easy ladder. Let me show you some of the practical applications, Terry. Come on over here. Terry, I have the ultimate ladder set up with the scaffolding. This is a decorator's and painter's dream, because remember two people can work at the same time, especially if you're painting or reaching something high. You have your paint or your tools up here, you missed a spot. But you know what, I'm up here with confidence. You can work above sliding glass doors, remember, box-frame construction, aircraft-grade aluminum, and it's A-rated to three hundred pounds, and I know we're not even near that, but here. I want to show you something real quick. Remember that nine foot extension with the three foot standoff? Let me show you this one. See, don't let a small job slow you down. You see this? The stabilizers have rubber feet so you will not mar the surface of any wall or things like that. Now this is a small job, but by the time you move the plant and get a ladder up there, put the plant back, it becomes a big job. Now, the three foot extension was not made to put weight on it, but for awkward positions like this, change the battery of your smoke detector. Now, that's very important to do. Perfect, perfect job. Look at this. Perfect because its non-slip rungs. This truly is the ultimate ladder. The SQV of ladders. Safety, quality, and versatility. Let me show you the twelve-foot extension. Terry, whether you rent an apartment or own your own home, the twelve-foot extension ladder is a must-have. Step up in safety. This is a commercial-grade ladder. You know, they put these air-conditioning vents in the oddest places, but you still gotta change them. And you know what, not only for this job. If you're working outside on a second-story window or cleaning out the gutters, This ladder has stabilizers from end to end, and rubber feet so they won't hurt the paint and surfaces. I'm not going anywhere. That's right, because it's very portable, easy to store. Now I have one last position to show you. Come with me. Terry, this was the first ladder that I showed you: the ultimate step ladder. And you will. You'll use it for all the small jobs, even big jobs. If you're vertically challenged, you can get to the top of the shelf. You can clean on top of the

fridge. You can change out greenery on top of here with pottery. You know what? Here's your choice: you can stand on a good, safe, sturdy ladder, or you can stand on the countertop. That's how accidents happen. Protect you and your family with the ultimate ladder. Step up and step down in safety. Terry, this does the job of eight different ladders. That's why we call it the ultimate ladder.

Ultimate Ladder part 2

<https://www.youtube.com/watch?v=LlPrV8mmlwc>

Well, Terry, you could go out and spend twenty, thirty, even fifty dollars on a step ladder. You get what you pay for. You may have seen this one on TV. You can spend a fortune on this one. It's pretty heavy, and I don't understand how to use it. Or, this was my old ladder. This A-frame ladder. I spent nearly a hundred dollars on this ladder. I never felt confident when I was up there. I can only work off of one side, and it always wobbled. And of course, here's old faithful: the twelve-foot, wooden step-ladder. It's very heavy, and where do you store this? If you take it in your house, you gotta be careful. That's how accidents happen. Of course, with the ultimate ladder, it does the work of all these ladders and then some. And it's the ultimate A-frame, that allows two people to work up on the ladder at the same time. The nine-foot extension with the three-foot standoff is perfect around the holidays for the Christmas tree, changing out the smoke alarm batteries. And I love the stair climber. Ninety-nine percent of the ladders out there will not do the job that this one does. It truly is, Terry. And remember, it all folds up easily. Aircraft-grade aluminum. box-frame construction, A-rated to three hundred pounds. It stores easy. You can put it in the trunk of your car instead of on top of the car. Step up in safety to the ultimate ladder. It's the ultimate problem-solver at the ultimate price. It's the little ladder that thinks big. I'm Billy Mays, and we give it two thumbs up. Come on, Terry.

GROUT-AIDE

<https://www.youtube.com/watch?v=AdOEAHrNruc>

David, good to be here. Well, it's a hot decorating tool, probably one of the hottest of the year, because I sell a lot of cleaners as you well know, but when it comes to cleaning grout, save the toothbrush for your teeth. Don't get down there and start scraping that grout. If it gets moldy and mildew. If you can draw a line, you can redesign the kitchen, the bathroom. Each marker covers a hundred and seventy five lineal feet. Just that quick. Just that simple. Just that easy. It comes in white, beige, or grey. Look at that. I said anybody can do this. No problem. Within five minutes just wipe it away. After that, it becomes permanent, and won't wash away. If you use bleaches and acid, bleach can turn your grout yellow. Acids can be dangerous. If you're working in a tight area, there's no odor. Odorless, non-toxic, This formula allows you to breathe in your bathroom. It's never too late to redecorate.

Orange Glo Hardwood

<https://www.youtube.com/watch?v=Wz7N7NZo0uQ>

<http://www.youtube.com/watch?v=A2HTgXjH3SA>

Hi, Billy Mays here. Are your hardwood floors dull, dirty, dingy, or damaged? Put the life and shine back into your floors with orange glo's amazing hardwood floor care system. It cleans, shines, and protects in one easy step. Watch this. This sander simulates years of wear and tear damage, but orange glo instantly restores the shine and beauty. This easy to use, one-step cleaner and polish doesn't just clean. It shines, and even protects against damage. The self-leveling formula fills in the scratches, eliminates the dull spots, and shines like a mirror. The secret is the unique formula developed by Bona Chemi, a name trusted worldwide in famous museums and sports halls. Restore the shine on virtually any type of hardwood. Clean, shine, and protect your floors safely with orange glo, the wood care expert since 1983. Tackles dried-on, sticky stains like wine, coffee, and juice. And unlike other products that leave a dulling residue, orange glo cleans streak-free. Watch under this black light how ordinary mops just push the dirt around. But use our cleaner with the microfiber mop to lock in dirt, leaving a path of clean. We'll also include our dusting pad. It works using a static charge, and removes dust and pet hair. You get it all: two bottles of our orange glo hardwood cleaner and polish, the supersize cleaner, mop, and three premium pads. A huge value all for just two payments of nineteen ninety nine. So clean, shine, and protect with orange glo.

Good morning, everyone. Hi, Billy Mays here. Good to meet you. Billy Mays. Hey, how you doin? Hey, I'm working with you all day. Hi, Billy Mays here. Hey, sorry to interrupt. Hi, hi, love your hat, Billy Mays here. Hey, big guy, can't wait to work with... I tell you what, I got a job. Can't wait to get to work. Hey, let's go. Hey, how you doin? Nothing, just hydrating. Nothing but water. No. What are you talking about. I'll see you at lunch. Good meeting. We'll get those reports done, and let's get out of here. Relax, relax, I always carry my Zorbees. Look at this. Just happened to have them in my back pocket. Look at this. It picks up everything. Look at this: coffee, tea. You know what? I'm gonna put that right back into your glass. Well, Johnny, I know you wanted to come up with something totally different, and I've been working on this for months. I think you're gonna like it. Are you ready? Here it is. Yes. I knew it. I knew it. I knew I could pull it off. Awards are voted on by a group of volunteer peers. In addition to a record number of entries

No, we're having a great day. I'll be available. One sec. I'll be right with you. It's an important call. Do you mind? Johnny Mathis. No, I don't know. He wants to use his phone. It's his office, but you know, I'm here for the day. You know. He gave me access to his office. I'm the rhyme master, and that's not happening. Rake, bake, shake. I don't. Wait a minute, hold on. Hey, how you doin'? Good to see you. No, no, no, no you're supposed to say nothing. What are you talking about? I'm just getting some water. No, good times, good times. Get some water. Good water. Is this smudge showing up a lot? Give me some orange glo. I get picked up in a limo and I got smudges all over the... I shook things up around here. I mean, everybody couldn't be more depressed... impressed. oh, sorry, more depressed. Whether it's big or small, here at livemercial Billy Mays does it all. In fact, I want to thank livemercial, and Johnny especially. You'll be better off without... In conclusion, I'd like to just explain one thing. The power of one word. Kaboom. Matt. Messy Matt. I don't have to use Kaboom. It's lucky I have a Zorbeez here. Look at this. Go over everything: coffee, tea, milk, or wine. If you have a nervous puppy dog, use it on those messes too. Back to class here. Class. Class.

Billy Mays Orders Food From A McDonald's Drive Thru

<https://www.youtube.com/watch?v=VtYdDK1uTDI>

Man, am I hungry. Jeeze, oh man. Being on the MJ wears you out. I gotta order something here. So they got buy one get one free. What is that? A biscuit? Bacon egg and cheese? I'm so excited to order here, I can't believe it. Alright, what am I going to order. I got to get ready here. Pick any two. Okay. Jeeze I got the value meals. I might get one of each. Ok. Hi, Billy Mays here. How you doin'? Good. I'd like to order the buy one get one free bacon egg and cheese biscuit. But wait, there's more. I'd like to get a hashbrown, and do I have to pay separate shipping and handling on that? Oh ok. But I'm still not done. I'm really hungry and I have friends here. How bout thus? If you call now, but I'm gonna order now can I get a sausage... make that two sausage burritos. Two sausage burritos. You want to get one? Okay. Two sausage burritos. And you know what? Let me wash that down with some chokeacola. I mean coca-cola. Make that diet coke. Gotta watch the weight. So you got the order? Buy one get one free. Wait, is that buy one get one free also? Ok. I want a buy one get one free. It has to be buy one get one free. Ok. And will you throw in the hash browns free? Ok. Got that. Is that it? Any shipping and handling or... You'll rush it, it'll be hot? There's no shipping and handling, and it's gonna be hot. Hey, young lady, thank you very much. This is Billy Mays, and I'm pulling around to get my order. Alright. Hey. Did you get a buy one get one free today? Alright. They're giving it all away. And it'll be hot. No shipping, either. Billy Mays is gonna pay for it. Let me get the credit card number. Alright, where's MJ's credit card? Oh, ok. I think with cash they need proper ID. I'll just yell that out. See if they have change for a hundred. Alright. Maybe I shouldn't be moving so much money in this area. So I'm not gonna pay one hundred I'm not gonna pay two hundred, not three hundred, not four hundred, right? Will you change a hundred? Thank you. Wow, what a deal. They're gonna break. Jeeze, I thought I was gonna get away. You know why their arches are gold? Cause they're solid. Cause of their French fries. I got something smaller if you need it. I got something smaller if you need it. You hear what the weatherman said? No change. I need change here. I

can change anything but a girl's last name. I already did that once. Twice. Third time's a charm. Alright. What's that. Oh, good. Oh, thank you very much. Sure. Should I pull around an order again? Could I do that? I just like ordering. So that buy one get one free is catching on. Maybe you should triple the offer. Ok. Alright, I'm gonna get up there and eat. They're gonna triple the offer maybe. Hi, Billy Mays here. How are ya? Oh my gosh. Wait a minute. Hold on. Is there any shipping and handling on this? I talked to you. Oh my god. What's that. Oh, you have to take that off for me. I have to work from out here. Wait a minute. Let's just keep it clean here. Oh, I have to... Thank you. Is this diet? Ok. No, thank you. Flattery will get you everywhere. Wow. I'll tell you what. It's a great day. It's a... my... hey do you use any of my products? Ok, which ones? The orange one. Oxiclean? Try mighty putty. Mighty putty. Mighty mendit. They're all good. They're all good. They're all good. Ok. We'll see ya. Alright. Bye bye. Wow. That was an experience. MJ, Billy Mays. I'm out of here. I'm gonna eat a triple value. I don't even know what they... Where's my Happy Meal? Oh, I didn't order a happy meal. Alright.

Orange Glo (new)

<https://youtu.be/qdshshlvTCw>

Shelly, great to see you. it's great to be here. So did you know the biggest investment you have in your home besides your home is your flooring?

it's huge, and it takes a lot of abuse, especially the hardwood.

exactly shelly. And really we've never had a system to put down a protective coat on our floors until now. Remember this shelly: clean, shine, and protect all our floors with one simple system.

In fact, it all starts with the orange glo floor care system from the makers of oxiclean.

you better believe it. I'll take you step by step through this whole system, and it all starts with cleaning.

Shelly, let me show you how most people clean their floors at home.

Now, they use a bucket. They use a mop. Here's one of the old favorites right here: a string mop. You know, all you're doing is pushing the dirt around. In fact, who wants to ring one of these out?

You want to throw them out. Now here's another doozy right here: a sponge on a stick. Now, you gotta get into the bucket, ring it out, and you know what, you put the dirt back on the floor.

Let me ask you something: how are you cleaning your floor with the same dirty water? You're really not.

Kinda looks like that shelly. When all else fails, most people get down on their hands and knees, and the old fashioned way: rubber gloves and a scrub brush. You rub and scrub and push and shove, and you know what...

it's a pain in the kitchen, you know. Now, I want to prove a point here. With all these methods of cleaning, we're all using them. Are they really cleaning? Can we lower the lights? Shelly, can you put this black light on the areas we were working?

You know, all you really are doing is pushing the dirt around. You can take any of these mops, and this is what's happening. You're spreading the dirt around

And you know, the old fashioned way down on your hands and knees? That doesn't do so well either.

So really, it just makes a lot of extra work. But here, let's bring up the lights. Let me show you something real quick here. With the orange glo mop and the allure fiber cleaning pad, without a bucket, without any other mops, no water. Take your orange glo cleaner, spray it right onto the mop or spray it right onto the floor. Can we bring down the lights again? You bring that black light over? Look at this. All you do is leave a path of clean.

You put a whole new meaning to cleaning. Bring up the lights again. Let me tell you, I told you Shelly, this orange glo floor care system is a breakthrough in cleaning.

Shelly, here's a quick breakdown on why this is so amazing. First and foremost, this is a complete system, and it starts with the low-profile, easy swivel mop, and the allure fiber cleaning pad.

Shelly, with the orange glo mop, and the allure fiber cleaning pad, and our cleaner you can clean virtually any surface you have in your home.

you don't have to drag out a bucket. You don't need all those different mops. You don't have to get down on your hands and knees. Spray the cleaner right onto the mop, or on the floor. Whether it's in the kitchen if it's vinyl. It doesn't matter. Ceramic tile? It works wonderful on there. It glides over the surface. It picks up the dirt. It leaves a path of clean. How bout hardwood? It's perfect for hardwood. It cleans the surface. Laminates. This is what everybody's putting in their home instead of wood. You'll love it just for that. And any type of wood as well. Light wood, dark wood, Cherry, maple. There's no mixing, no measuring, no buckets, no mess, no hassle.

So Shelly, step number one is to clean, step number two is to shine and protect. That's when we use orange glo's hardwood refinisher or orange glo's revita-shine. Now, for all your hardwood, like cherry, maple, oak use the orange glo hardwood refinisher. Give it a go.

look at that. Wow... brings out the beauty of the wood. But more importantly, you're protecting the wood from the wear and tear the damage of the foot traffic. That shine will be a long lasting shine, but that shine means protection. Everyday all the dirt, the grit and the grime that you grind into em, now you're protecting them.

It fills in the scratches, eliminates the dull spots, and brings out the beauty of the wood.

This allure fiber cleaning pad. It's so revolutionary. Actually, believe it or not, there's over five million that grab and trap and lock the dirt in. Even the dirt that you can't see... Come on into my lab and I'll prove it to you. Now this is a microscope magnified over three hundred times. I'm gonna show you just the fibers on my shirt. See how it picks that up? You try it. And then we're gonna show you on the allure fiber cleaning pad. You see that? Really really sees everything, even the stuff you can't see. I want you to put that microscope onto the allure fiber cleaning pad. This'll give you an idea. Over five million of the allure fibers in there that grab and trap the dirt right in there and lock it in. Now I'd like you to put that right on the dirty one. Just to show you. You see that? Other mops are just pushing the dirt around. This is grabbing and locking it in. Shelly, this is the dirt that you can't see. That's why we have dirt lock technology. In fact, it's revolutionary. This model right here, one of the allure fibers. Remember, over five million of these in one of the pads. Over five million. Now, as this rolls along, each one of these fibers

expands and grabs and locks the dirt and traps it right in there. Take a look at that. That's amazing. It really is. The dirt that you can't see. It really does put a whole new meaning to cleaning.

We put this plexiglass down in the Marsh's home in the busiest area between the garage and their house. This is what's happened to the finish in your floor in just six days. Imagine over a year's time. Well we're gonna show you how to stop that from ever happening again. Stacy this is step number one: take the orange glo hardwood floor cleaner, spray it right onto the allura fiber cleaning pad. First you gotta clean your floors? Give it a try. How's that? See you feel it cleaning it. Oh ya. Now here's what you do. When you're done cleaning your floors, take the pad, drop it in the washing machine, no more replacement pads. Save money there. Stacy, step number two - you can actually finish your floors with orange glo hardwood floor refinisher. Now, take the allura fiber refinishing pad. Fits on the same mop, got it? Now here's what you do: you squirt a little bit down, you do your floor in sections. And let the mop, and the allura fiber pad do the work. Take a look at this: it brings out the shine and the luster. It's that easy. Look at that. See, it's not only the shine, It's the protection. Maintain your floors, and maintain the shine.

Shelly, this is the plexiglass that I took out of the Marsh's house. Do you believe the abuse that our floors take? Six days, and you know what? I'm gonna take it a step further. I'm gonna put some serious abuse on these floors - watch this - with this sander. This is what simulates years of wear and tear damage in just seconds. I'm literally trying to ruin the floor here. Well, if your floors are banged up, beaten, you know what? They look dull, dingy, lifeless. Now, I have the orange glo mop, our orange glo hardwood refinisher. Squirt a little bit down. Remember: its self-leveling formula fills in the scratches, eliminates the dull spots, and brings back the beauty and luster of the wood. Exactly, polyurethane is state of the art, professional finish for hardwood floors. It's tough, long lasting, and shines like a mirror.

For laminate floors, you use Orange Glo's revita shine, and you use it the same way. Squirt a little bit down, and that's all you gotta do. The self-leveling formula fills in the scratches, eliminates dull spots, but again, you're protecting the laminates. Look at that. You clean, shine, and protect. That's what it's all about.

What I like about this product, it has a uv protectant. Look at this. Foot traffic. Everyday wear and tear, and it makes it look good.

Liquid Diamond

<https://www.youtube.com/watch?v=9JljwtZBCpU>

<https://youtu.be/IDlbky5TfX0>

Hi, Billy Mays here for liquid diamond, the most durable shine ever put in a bottle. And thanks to you, liquid diamond is now officially the fastest way to wax. Only liquid diamond has the motorized power sprayer. Just pull the trigger for even, one-coat coverage. Spray it on wet or dry over metal, chrome, trim, even the glass. It sprays on clear, dries clear, and never leaves a white residue. It puts a whole new meaning to wax on wax off. It made ten years of weather damage disappear like magic. And on a junk yard jalopy, it brought the color back to life. When applied wet or dry, the silicone polymers in liquid diamond bond with the surface, sealing in the shine, while locking out dirt and grime. [...] Liquid diamond takes protection to the extreme. Tons of construction mud rinses right away. Sticky road tar won't stick around. Not even fire can penetrate the protection of liquid diamond. Call now and get this professional microfiber detailing cloth that finishes off that ultra-liquid diamond shine in no time. But wait. It's pretty simple. No other car wax in the world seals and protects like liquid diamond. It's the ultimate protection for cars, trucks, SUV's, boats, motorcycles, and RV's. If you've tried the rest, and are ready for the best, stop rubbing and buffing. Get liquid diamond, and just spray, wipe, and walk away. Here's how to order.

Cavuto with Billy Mays selling Obama plan 2

<http://www.youtube.com/watch?v=m-fo2s1wedU>

Hi, Billy Mays here for President Obama's economic stimulus plan. Hey, if you want to clean up toxic assets, I tell you what, for two easy payments of about two trillion dollars, we can get it done. I have to. I do. I'm mentally rich. I love doing what I do, and you know what Neil? I couldn't be on TV for eleven years if the products I pitch didn't work, didn't have a good name, really? So all the products gotta be Billy tested, Billyized, I mean.

Billy Mays Pitches livemercial, Pitch It to the Pros on Jeff & Jer

<https://www.youtube.com/watch?v=lyPmxr4afRQ>

San Diego, listen up. Come out to the Bayfront Hilton. Hi Billy Mays here. If you've got a pitch, got a product, bring it out to the Bayfront Hilton, and I'll tell you what. We'll let you in, you can get in front of us, you can pitch it, we'll promote it. We'll put up our money, and take the brains to the bank. But I'm not done. If you can't make it to the Hilton, if you don't got a car, truck or van, here's what you do: you go to livemercial.com, and you can upload your product. We're gonna judge it tomorrow.

Billy Mays calls out Vince on the Adam Carolla Show

<https://www.youtube.com/watch?v=Orb4fei6GPY>

Let me tell you something. About two years ago I had a product called zorbeez, ok? It was the most absorbent towel in the world, and it is the shammy, ok? Now what I did was I laid the foundation. Now he came in and built a house, and what I'm doing right now, I'm gonna redecorate it. I'm moving right in. And he also has a product called... the quick chop? He has the crap cho-- the slap chop. Don't knock Billy Mays off, because I'm coming after you. Vince, if you're listening out there, it's over. It's over. Sham pow! You know what, you have woken up and unleashed a sleeping giant. You know what? It's gonna be a smackdown, it's gonna be somewhere. I'll have a pitch-off any time with you vince. Any time, anywhere. I'll tell you what. Maybe here at the Adam Carolla show, because it doesn't matter. If you knock me off once, shame on you. If you knock me off again... He did apologize to me through email, but you know what? Apology not accepted. You know what? That's alright. These are my weapons here when I use them on TV, ok? I don't come after you. You know what? I'm a lover, not a fighter. He won't show up. It's not even about that. It's about this. It's about respect in our industry. And I... you know what? If you knock somebody off we have this understanding that, you know what? If you're selling this product, don't knock me off, I mean... There's a code, but he broke the code, and when that happens, shame on you. but you know what, Adam? I have about twelve to fifteen products running at one time. you may have a one-hit wonder, and maybe you have a second hit, but guess what? Don't take my products. I take it personally. And I'm gonna take them back. The shammy's been out for thirty years, but the Zorbeez was mine. He thought he could get in there, and he did. And you know what? It's not that I... you know the companies that I work for let him in. They didn't take him seriously, and you know what? The next

thing you know he's in, but he'll soon be out. He'll be out. It's called sham pow. If you're listening, and I'm serious Vince. I'm serious. Billy Mays doesn't take this. I am the ultimate pitchman. If you want to come after me I'm any time anywhere. I'm in LA. You're in Miami. I'll come to you. Okay? I'll get the jet ready. I'll be there February twenty-eighth, March first, second, and third. You know what? No problem. I'll be there. You want a pitch-off? You want to do this? You want to do the clap chop, you wanna do the quick chop. It doesn't matter. Let me tell you what. I ain't The Beastie Boys or Run DMC. I'm Billy Mays, I'm gonna knock you down to your knees.

Livemercial - Billy Mays - Pitch It to the Pros Reponse Expo '09

<https://www.youtube.com/watch?v=bBKq5UhUscg>

Hi, Billy Mays here. We're live at the Response Expo at the livemercial booth. If you have the next million-dollar invention... From your brain to the bank. We pitch it, promote it, and you profit. Come on down!

livemercial - Pitch It to the Pros Prize Presentation Response Expo '09

https://www.youtube.com/watch?v=E1C_EkbPRu0

Tuesday? You should get to bed early. On behalf of livemercial, Johnny Mathis, and his whole team, they've done a great job. We want to thank all of the inventors who've given us a pitch today and yesterday, let's give yourself a round of applause. Cause you know what? Through every great recession and depression, comes greater innovation. And we're in the toughest economic times we've ever been in. And you know what? It's now time to get back to your garage, start tinkering, because it's you inventors who are gonna get us out of this jam, okay? And that's about our industry, too. Everybody in our industry thank you, and you're all here. Give yourself a round of applause because it helps bring everybody... The fulfillment, livemercial, thank you, Johnny. We had a tough decision to make, and uh, the winner, it wasn't all about the product, it's all about their program. Having it ready to go to market. So the winner is... it is? Thank you. Uh. It was a tough decision. We went back and forth, and the winner is... Remember, ordinary people have extraordinary ideas, and the winner is TC pets. That's right. Remember, life's a pitch... that's right.

Billy Mays and Anthony Sullivan Endorse The iTie

Hi, I'm Billy Mays. We're here to tell you we give the iTie two thumbs up. Store your business cards, your credit cards, even an mp3 player right in the back of the tie. It's perfect for anyone that has to wear a neck tie... and I'm Billy Mays. Do yourself a favor, and get yourself an iTie.

Rachael Ray: Pitchmen - Billy Mays at Anthony Sullivan

<https://www.youtube.com/watch?v=cZHiz7-G2s>

I like this. Right in the middle of the mall. First thing, you gotta gather the crowd. We call it "ballying a tip." Hi, Billy Mays here for the super sleeve. It has that memory-flex. It goes back. It reminds you to not burn yourself. Grip, and sip. Second thing... What about this? What if I include four of the sippy lids? We gotta come up with some features and benefits. Why they should buy the super sleeve. Three people can get the Rachael Ray autographed super sleeve. Let's make it four. I found another one. Five people can get a Rachael Ray autographed... I get so excited I just talk with my hands. I can't pitch unless I'm... It's the magic. The magic hands. But you know what? I'm passionate about all the products. But for my products... our products that we sell together... demonstrable. You know, solve a common problem, but here. This one is one of my new ones. The Tool Band-it. Take the nails out of your mouth. The Tool Band-it, it's like a toolbox right on your arm. Look at this. So you have the screwdriver here, the hammer here. When two hands just aren't enough, reach for the Tool Band-It. It's like having a third hand. So you

ever try this, you want to put up a picture. But the best part of all, it will hold, and look. It even cleans up after itself. The neo-magnetic technology, and wait a minute. I'm not done. Here. It will actually hold up to 25 pounds. I tell you what. The Tool Band-it coming at you soon. It's one of our episodes. Hold on. Let me see if that hurt.

livemercial - Billy & Sully on Jeff n Jer Showgram

<https://www.youtube.com/watch?v=f3QOWhNGGho>

You know what? Don't be a heel. Don't start off the day... First let me do some order of business. We're here with Johnny Mathis from livemercial. If you have a brand new product and you want to pitch it here in San Diego, listen up. Come on out the Bayfront Hilton, or you can go to livemercial.com... Hi, Billy Mays here! If you got a pitch, if you've got a product, bring it out to the Bayfront Hilton. And I'll tell you what. We'll let you in. You can get in front of us. You can pitch it. We'll promote it. We'll put up our money and take the brains to the bank. But I'm not done! If you can't make it to the Hilton, if you don't got a car, truck, or van, here's what you do. You go to livemercial.com, and you can upload your product, and we're gonna judge it tomorrow, and we're gonna give out and award for the winner. So livemercial.com. They're the ones that power all of our informercials on the web. They are big. Let me tell you, you think we're big? They're big.

The hips don't lie. I may have to put off to the next season, but I'm in. I'm in if I want. You know what? I actually started working with him, and we started doing commercials. I started on the Boardwalk in Atlantic City. Twenty-seven years ago selling the amazing washmatic. He started on the streets of London selling the amazing washmatic, which was made in England. So we actually are past-connected... he was the best producer in the business and he said to me "how are we gonna do this?" I said "Hi, Billy Mays here, and I've been saying it ever since... That's plagury. It was actually Orange Glo. Oh ya, I got a little. I got an "attaboy."

Do you know his name? Timmy Matosko. He's still around. Timmy, the guy who inspired you. Tommy, his son, had a major air accident, he's a paraplegic, but he's still promoting. He's the best pitchman that promotes right now. But I'm gonna tell you, very inspirational. You'll see the episode coming up in about three episodes. And another thing, and another thing, and another thing. I like the impact gel, because you know what? I like going to the Jay Leno show and smacking the heck out of my hand. I really got a lot of pleasure out of that. Hey, dude, look at that. I've got a broken finger. You can cut everything but bad habits and taxes.

It comes from our earth. It's mother nature approved. I say that "Hi, Billy Mays here for oxiclean the stain specialist. Let me tell you this real quick about Discovery Network. Discovery went above and beyond, and you know what? We went out searching for inventors. And what they did was we're telling the backstory, because through every great recession and great depression comes even greater innovation. We're in tough times right now. I want to be known as Billy I'm gonna save you money Mays, because it really, it's tough out there. You know, I'm gonna drive you crazy.

That guy's not just mentally rich. He puts his money where his mouth is. I'll tell you something. He wants to promote the product for you, it's brains to the bank. You know what? You go the brains, he'll take it to the bank. You got the product... livemercial.com. I was walking up here and I was limping and someone said what happened, and I said I have the hops. I worked in a Brewery. We did the energize. Absolutely, we're here for you. You think you're getting us out of here that fast? I woulda did that one.

The American dream. There's not a European dream. If you have an invention, you know what, protect it. More inventions are actually stolen or ideas when you talk to friends who are maybe not your friends, but acquaintances. That's how they're stolen. You gotta protect your intellectual property. So what you want to do, and I've heard the horror stories, Sully's heard the horror stories. If you've got a product, and idea you wanna prototype it, get it to Johnny at livemercial. Get it to us at discovery.com. You know what though, we will not take any of your money. We will only help you. We talk to people every day that are in debt five, ten, fifteen, twenty grand. Do not give your money to these invent help or whatever. Let me tell you something. These people are designed to say "I love your product." If I don't like your product, I'm gonna tell you. But the thing is, do not give your money until you get an opinion or second opinion from us, from Johnny, from somebody. Do not talk about your product because... livemercial.com.

He'll be saying I thought of that product. And you know what? Couple products or couple ideas that were born in tough times: Apple, Microsoft, Google. The flower vase. I was on the boardwalk in Atlantic City and you know what. It was one of my first products. If you can sell on the boardwalk in Atlantic City where they're drunk, they're broke, and they're just there to laugh at you, I mean they were laughing at me. And you know what? It was a humble beginning, but I was taught by the best pitchmen you'll never know. Ed McMahon started for our company. Charles Bronson, Robert Redford, I'm in good company. National Kitchen Products, remember, life's a pitch...

I would love to see anybody who has a great product. It only takes one product. How big is that problem? Mass appeal. Let me tell ya, who? I bit my tongue. Sham pow. I want to tell you something. I was on Adam Carolla, and you know what? I called him out. I'm gonna tell you something. It was a battle royale. I had the Zorbeez about three years ago, he comes out with the shamwow. I had the quick chop, he got the crap cho-- er slap chop. You better be careful how you name your products. Slap-a-what? Slap this? What goes around comes around. Vince, I know if you're listening out there, if you need help, we'll get you help. If you want to be a band of brothers in our pitchmen, our small group, don't knock Billy Mays off. I ain't The Beastie Boys or Run-DMC. I'm Billy Mays, I'm gonna knock you down to your knees. You know I can't condone anything that he did. You know, first of all to be with a prostitute, then to beat her up. I mean, cmon. You got the money Vince. Tip her. Tip her.

One of the big things for me when I'm doing an interview... is it demonstrable? It really does. I mean, it gets a peek behind... I'm not just he yell and sell. Hi, Billy Mays here for OxiClean. Now if I did that all day long. No there are. I mean, so many people have so much on the line. I mean, we've been doing this for so many years, taking for granted. People put up their houses, put up their children's education for a product they're so passionate about. Is that it? Is that it? Go ahead. And all the products we use, we have to put em to the test. I had my hip replaced last year. I've been using the impact gel insoles and I gotta tell you it's... Well, this here was invented by a guy named Mike Sherm. He's from California. It's one of the episodes. and uh basically it's called the Tool Band-It. You know, when two hands just aren't enough, reach for the Tool Band-It. You know what? It does the job of two. I mean, the tools are right here. You can reach for this. Why take the toolbox to the job, when you can have the toolbox right on your arm. It holds, it has the strength and the muscle to hold up to 25 pounds. I'm projecting. But the Tool Band-It it's a great product. Solves a common problem. It's demonstrable. It has mass appeal. You'll love it. You have to read it fast. We know within probably twenty thirty seconds, and we've been wrong before. We know right off the bat. Why don't we?

Behind the Scenes of the Ultimate Ladder

Lower the bus. When I say lower the bus, lower the bus. This is unbelievable. Thousands and thousands of pounds. The ultimate strength test. The ultimate ladder. Look at that ladies and gentlemen. Live here. This has never been done in television history. Look at this ladies and gentlemen. That's unbelievable. The sqv of ladders. Safety, quality, versatility. Ours is the best. You've seen all the rest, now get the best.

Billy Mays -- Mighty Putty Bloopers

<https://www.youtube.com/watch?v=qAOuwdzj2o8>

I didn't hear nothing. It's gonna go kaboom. We got em. Alright! Ah, they're gonna fire back. That's mighty putty wood. It's good for your wood. Cannonball. Release the hounds. Prepare to do battle.

Billy Mays pitches Obama's stimulus plan (better quality)

<https://www.youtube.com/watch?v=6DUuWm0U8TI>

Hi, Billy Mays here for President Obama's economic stimulus plan. Hey, if you want to clean up toxic assets, I tell you what, for two easy payments of about two trillion dollars, we can get it done.

Billy Mays Interviews Obama Tonight show

<https://www.youtube.com/watch?v=LWTCIpT1j7U>

Mr. President. Billy Mays here for OxiClean. Have you ever tried to get stains out with an ordinary cleaner? Try OxiClean. It's tough on stains. Kaboom and the stain is gone. How bout mighty mendit? How bout mighty putty. And if you're real hungry, the big city slider station.

Bill Green Host of "Shop Talk" with Special Guest, Billy Mays

<https://www.youtube.com/watch?v=DoHRFIEDSMk>

A vat. You better believe it. You have to have a handle to carry it around. One pound makes. It's powered by the air you breath, activated by the water that you and I drink. Let me tell you this. Now OxiClean is brought to you by the makers of Orange Glo, a name you can trust. Now orange glo goes after the greasy stains like gum, lipstick. Oxiclean goes after the organic stains, pet stains, food stains, wine stains. One pound makes 32 gallons of a cleaner and a brightener. Now listen to this. Oh ya. But you know what. We sold over 100,000 at the state fairs ok. This here, the one pound container with the shammies, Nineteen ninety-five. Now listen to this. We give you here at HSN, this is the big O. This one makes eighty-four

gallons. Bill listen to me. Now listen to what we have for one day only. This here is the big oh my goodness it's gigantic. It's huge. You have to have a handle. It makes 110 gallons of a cleaner and a brightener for your house. For your home. Let me tell you something. It's huge. Let me tell you this. You're the best. I'm gonna go. Listen to this. Now it's powered by the air you breathe, activated by the water that you and I drink. coffee, tea. This is hair dye. This is iodine. Let me tell you. If you ever got a red sock in with the whites, yes this will make it white again, bright again. Now, everything that you buy in the store, most of it has bleach, okay? Bleach. let me tell you. Toxic. Bleach, get rid of all of them. I wanna tell you about this, oxiclean. On the carpeting, as a grout cleaner. Put it in a spray bottle. Watch this. This is a nice shirt. Oh ya, hot water, oxiclean. The best part of all. Watch it get white again, bright again. And look at this. It takes out the stain. Now if that was bleach, you'd have a big white mark. It is the best cleaner. Look at this. Silk, it is unbelievable. Now, oxiclean. Powered by the air you breathe, activated by the water that you and I drink. You can make a little... the big oh my goodness. We already sold out once. Can we talk? Let's talk. Hi, how are you.

Tell us. Beautiful. In the laundry it's the best. Take a couple about a scoop of oxiclean, get a basin. Put some hot water in it. Let it soak overnight. Because when it didn't, when you keep setting it in it has to pull off the layer upon layer upon layer. Okay, let it soak. You can't do that with bleach because bleach would rot the material. You can let oxiclean soak in there overnight. For a couple of days. It will not hurt it. It is the safest product. It is powered by the air you breathe. It is mother nature's way of cleaning. Ya, you ever get a cut you go after that little brown bottle. Listen. I just want to address a few things right now. If you do this. What you can do it this. Take you can do this. Actually you take a couple of scoops into a bug sprayer. You can do your aluminum siding, vinyl siding. Awnings, shutters. Down spouts. It is the best thing. If you have a boat, this is a dream. And I just wanna tell you this. This is a piece of wood. This is what I got along side the highway on my way to work. I gotta get a life. Look at this here. Look at the grain of this. The grain of this is the best because it actually attacks the grunge. It goes after the bad things. The bad stains. Pet stains, food stains, I have a dog named spot. Now it's gone. Spot, if you're out there please come back. I gotta tell you. For a boat, a camper, a trailer, it is a dream. Those pebbly surfaces. Watch this. Look at that. Oh ya. Mold and mildew. Ya, ya. Oh ya, oh ya. It's real, let me tell you.

Hey, Donna. Hey, Donna. How ya doing Donna? Good. Thank you very much. Excuse me, don't be a clown. Thank you so much young lady. You know what? You're gonna love it for the laundry, the mold, the mildew, all the bad stains. If you have wine stains it doesn't matter. In your carpeting, on your carpeting, into the padding of the carpeting. White wall tire, unbelievable for that. Now all you do is spray it right on there, it makes them white again. It makes them bright again. It is unbelievable. For the brick above the fireplaces, it gets rid of the soot. Thank you young lady so much. We want to ask you a question. Thank you very much. Okay, okay. In Ohio.

Okay, now listen to this. I'm gonna clean up my act along with yours. I wanna tell you this. In the laundry, the jewelry. Now how bout this? Pet stains, food stains. Now when a dog has an accident, he's on time you're not. Rover just went all over. Let me just tell you. It goes down into the padding. You know what? We're talking about puppy poo number two residue. Now in the padding, the matting. All you do. Now this is an old stain we put it on before the show. Now look at this. The best part. Oh look at this. If all it did was take out that top layer. Oh look at this. Evelyn, yes. Well what you do. Absolutely. That's usually what a bachelor does. Move it around, change the furniture. You're very smart, I gotta tell you. What you want to do is this. You wanna take a little bit of oxiclean, put it in the squirt bottle. You get the shammies with it. Pour a lot on, and blot it up. See this raises the liquid from the surface. Look how much water that holds. It holds more liquid than a thirsty camel. So you pull the moisture out. It will not leave a ring there. Nothing to come back to haunt you. You'll love it. I don't do windows, but I do home demonstrations. Listen buddy, you're not taking your pants off.

What we want to do is this, Bill. Give me all your jewelry. Put a little bit in a bowl of water. What do you spend on a good jewelry cleaner? You could spend eight to ten dollars, but here. As a jewelry cleaner, by the way, it is the best. Now, the rings go in there. Diamonds Ok. That's pretty nice. Wait a minute. Hold on here. Any type of gold. For your gems, it is the best. It's safe. That's right. Look at this. Now I wanna just tell you. Everybody if you have sunglasses put em on. Look at the shimmer of this. The gold. It shines like a mirror. Let me just tell you this. Look at the coin here. But we're gonna do some more laundry. Are you ready? Are you ready out here? Ready. Okay, let's go. Now what you want to do is this. Oxiclean in the laundry it is unbelievable. Oh ya. We're gonna go for it here. We're gonna put everything in here. Now, coffee, gravy, hair dye, oh ya. Oh my goodness. Now don't try to run Alberto. If you put bleach in here first of all it would ruin the laundry. Oxiclean. Don't be home, don't leave home, don't be down the road without it. If you travel, it's the best. RV's, campers, trailers, let me tell you it is the best. Now, one pound makes sixteen, eh thirty-two gallons, excuse me as a general cleaner. The big O, this is what we sell at the state fairs and the home shows. Now, the big O, the two-and-a-half pounds, over a hundred-and-fifty thousand sold, it's our anniversary today here. We've been here one year exactly. For one day only we toss in another pound absolutely free. We have it. This is the big oh my goodness it is huge let me tell you. It is so heavy it makes a hundred ten gallons. I don't wanna work, I just wanna bang on the drums all day. Oh my goodness. It is huge. It is big. Help me out, Bill. You grab that, Bill. You grab the table. This is the big one. In the laundry, now. Two super shammies. What you want to get, you get two of the shammies, you get the squirt bottle, and what's the scoop? You get that with it. In the laundry, watch this. The whites, they get whiter. How much money do you have in your laundry? Watch this. The best part. And by the way, I picked number twenty-six. Who has twenty-six? Come on up here. Look at this. The whites get whiter, the brights get brighter. Here's the lucky winner. Alright Johnny. Alright.

Oxiclean Stain Fighter

<https://www.youtube.com/watch?v=4T9RQqHIPdA>

Laundry detergent doesn't remove all stains, but there is an easy way to fight stains without missing a thing: Oxiclean stain fighter. You just pour it in the wash to boost your detergent's power. Look. Even tough blueberry stains can't hide from oxiclean's stain fighting power. Nothing's better at removing stains, brightening colors, and whitening whites. So add a cap of oxiclean stain fighter to every load. I promise you won't miss the stain.

Oxiclean Stain Fighter 2

Grip 'N Lift infomercial

<https://www.youtube.com/watch?v=-EI5cAMy8GY>

<https://www.youtube.com/watch?v=VUv8IAux24c>

Hi, Billy Mays here for the Grip n' Lift. When you need some extra help with those outdoor chores, it's a must have. Don't strain your back by bending over to pick up dirty debris. Whether you're picking up grass or mulch, or the unwanted garbage you just don't want to touch, the Grip n' Lift will give you the extra power to lift without breaking your back. The secret to the Grip n' Lift is its cross-section formation that allows you to easily grip, lift, and pitch without bending. Attach it to any ordinary rake or broom. It rakes, sweeps, and disposes in one easy step. The Grip n' Lift has the power, design, and balance to pick up and carry a heavy, five-gallon bucket of water, yet it's precise enough to pick up something as small as this dime without bending. Use the Grip n' Lift in the standard formation or you can separate them. Put your hands through the openings and give yourself two super-extended arms for the added wingspan that lets you pick up more in less time. Use them as a super scraper for snow and ice in the winter. Even gloves don't always keep you clean. Use the Grip n' Lift for pet messes and wet stuff. Young or old, big or small, the Grip n' Lift does it all. Call now, and you'll get the Grip n' Lift, complete with rake attachment for only \$39.99. We'll also include the clip-on jaw inserts absolutely free for when you really need that extra grip. Now you can get underneath boxes, bricks, potted plants, broken glass, and more. Samurai Shark Knife Sharpener (different one)

<https://www.youtube.com/watch?v=OAhUS8DoT5U>

The Samurai Shark, the ultimate sharpening tool that puts a razor's edge on dull knives, scissors, tools, or just about anything with a cutting blade. The secret to the Samurai Shark are the tungsten-carbide sharpening blades, along with their unique angle that give you a precision edge each and every time. Countertops, cutting boards, plates and dishes ... these are the things that dull your knives. This knife is so dull, it won't even cut this sponge. But with the Samurai Shark, it's as easy as one, two, three and you get professional results each and every time. The retractable sharpening blade allows you to easily sharpen serrated edges. When it comes to sharpening scissors, ordinary sharpeners are tough to use. But whether it's scissors, tools or knives, big or small, the Samurai Shark sharpens them all. If you're an outdoorsman, take it with you when you go hunting or fishing to keep those filet knives razor sharp. It fits in your glove box, tool box, even your tackle box.

Samurai Shark 10 min

<https://www.youtube.com/watch?v=ZNgbOAsjjO8>

Does your kitchen have a drawer full of dull knives? There's nothing more frustrating than trying to slice a ripe tomato with a dull knife. Hi, Billy Mays here for the HomeSmart Samurai Shark, the ultimate sharpening tool that puts a razor's edge on dull knives, tools, scissors or just about anything with a cutting blade. And in just a minute, I'll show you how to put a razor's edge on serrated knives., something ordinary sharpeners just can't do.

What makes the samurai shark different from any sharpener you've ever used? The secret's the tungsten-carbide sharpening blade, along with our perfect angle, that give you a precision edge each and every time guaranteed.

Countertops, cutting boards, plates, and dishes. These are some of the things that dull knives. Watch as I deliberately dull this knife on a steel hammer. Don't try this at home. Watch this. This is steel against steel. Metal against metal. I'm actually taking the edge off of this knife. Now the wooden handle, this could be ham bone, lamb bone, chicken bone, frozen food, they'll dull your knives as well. This knife is so dull, it won't even cut this sponge. With the samurai shark, just lay it right across your countertop, and it's as easy as 1, 2, 3, and you're done. Watch this. Watch as this knife goes right through this sponge like a hot knife through butter. That's the power of the samurai shark.

Everyone has a drawer full of dull knives, and to go out and replace those knives would cost you a fortune, but with the Samurai Shark it's as easy as 1, 2, 3 and they'll be cutting like the day you bought em guaranteed. Ordinary knife sharpeners are tough to use mainly because you can never find the right angle, and they're dangerous. What makes the samurai shark so effective? The tungsten-carbide sharpening blades. They're second in hardness only to a diamond. The samurai shark sharpening blades are so hard, it even takes the steel off an ordinary sharpener. That's the power of the samurai shark.

I promised I'd show you how to sharpen those impossible to sharpen serrated knives. Ordinary sharpeners just won't sharpen em. With the samurai shark, the special retractable delta shaped sharpening blade easily allows you to get in between each and every scallop. That's where the edge is. And it's as easy as going back and forth. You could easily put an edge on an expensive bread knife in seconds. Just a few times back and forth, fresh bread, no problem. You want to slice it thick? It goes right through it. You want to slice it thin? One loaf of bread will last you all winter long. Dull serrated knives are a thing of the past with the samurai shark.

One of the hardest things to sharpen are dull scissors and sheers. With the samurai shark, it's easy. All you do is use the special retractable sharpening blade. Open up the scissors, it's easy. All you gotta do is run it a few times this way. You got that perfect edge. A few times this way. You put the razor's edge back into scissors, sheers. Quick fast, and easy. You'll love it.

The samurai shark. The ultimate sharpening tool that puts a razor's edge on dull knives, scissors, tools, just about anything with a cutting blade. The secret to the Samurai Shark are the tungsten-carbide sharpening blades, along with their unique angle that give you a precision edge each and every time. Okay, that's enough. I like to start my commercials a little something like this. Where's my oxiclean by the way here? Right here. This one isn't the whopping six-pound bucket. I have a couple surprises here. Young lady, this is for you. Have a free one, okay? Anybody else? It looks like a holdup, but it is New York. Here. By the way. Powered by the air you breathe. Hi, Billy Mays here for oxiclean. One scoop in every load of laundry. Watch this. Makes your whites whiter, makes your brights brighter. Oh yes, I'm not done. But wait, there's more. Hey, Bud, here. This is for you. Oxiclean works over and over again. Mix it in a bucket. Pay attention, I'm gonna ask you some questions here. Use it over and over again. This is my secret sauce. If I stain you with it, it's not coming out. It's not. Unless I have a couple of people who'll come up here. My grill masters, my stain masters. But here. Oh, by the way. Can one stand on my left, and one on the right? Anybody have a nervous puppy dog? Hey, you have a big dog? A golden retriever, a retriever. Ya, I have a dog named spot. Now I don't. He's been gone for four years, look at this. Oxiclean. You mix a little bit in a solution, you can get rid of pet stains, food stains. Hey, anyone have any drunk, drinkin' friends? Nobody's drunk here, eh, we're just happy. Well I'll tell you what. Red wine on white carpeting, oxiclean, and we have a lot of different formulas. But it is a barbeque, and I have a secret sauce here. You can see that oxiclean works on just about any stain.

<https://www.youtube.com/watch?v=hMDRlyICWEw>

Hi, Billy Mays here at the oxiclean test lab with great news. Now oxiclean is better than ever at fighting your toughest household stains. And we'll go to any length to prove that oxiclean is the only stain remover you'll ever need. You've seen our commercials, so you know we set the standard for fighting your toughest stains, like blueberries, coffee, even red wine. It's safe to use on colors, even delicate lace, yet still tough enough to clean patio furniture, and natural wood decks. Oxiclean is now even better than ever with our new stain fighting technology. Oxiclean is even better at attacking and removing greasy, oily stains like salad dressing, tough grass stains, even America's favorite dip and drip, salsa! The stain from the salad dressing, it's gone. Those tough grass stains on the baseball uniform, they're out of there. Now let's take a look at that nasty salsa stain. This shirt is ruined, right? Wrong. Watch the stain fighting power of oxiclean in action. And look at this! The stain is gone, and the colors safe. Remember the grape juice? It's gone. And now oxiclean works better than ever on even more stains. Lose the stain and save the day with oxiclean. Call now and bring home not one, but two three and a half pound tubs of oxiclean. Ten individual oxiclean wipes, this oxiclean squirt bottle, and this handy soaking bucket. Call now and we'll give you two boxes of oxiclean's powerful dishwashing detergent free. You get all this for only nineteen ninety-nine. We know you'll love the cleaning power of oxiclean. That's why we guarantee it. Not just for thirty days, but forever.

Try orange clean and the amazing orange clean wipes.

Euroshine dutch rubber broom

<https://www.youtube.com/watch?v=LkLiBE4R6UY>

It's a pleasure. Thanks for having me. They call me messy Marvin, okay? I clean up my mess. It's the last broom you'll ever by. In fact, it's made out of rubber. Feel how light it is. Cast aluminum. It has a lifetime guarantee. Now, you don't get a guarantee with a broom like... you're unbelievable. You the man. Exactly. You have trouble with your hands or your wrists. Cast aluminum lightweight. In fact, I'm standing on the broom. You can't hurt it. It's made out of rubber. In fact, it has three-hundred and fifty rubber fingers that form a solid rubber wall. See, when you use brooms like this they flare apart. You have to do double work. Especially on hardwood. Watch this. If we can get a closeup here. Now, without any effort at all, are we ready. Watch this here. One pass gets it all. You see how it lines everything up?? See there's no going back and forth. Look at this. On hardwood, on any floor, it doesn't matter. Look at this. In half, literally. Every surface. Every surface. A big stocking, okay? In fact, let's get right to it, okay? The last airing before Christmas, you buy the first one fifteen seventy-five, you spend nearly ten dollars for one of these, they get dirty you toss it out. You get this dirty I'm gonna show you how to clean it, okay? And you can clean with it. Now, throw these away because you don't need them. These are the biggest collectors of dirt, dust, and pollen. This was in a famous movie. If you get the offer here, a lot of people buy more than one. In fact, if you buy the first one fifteen seventy-five, we'll offer you the second one at half price. That's our normal deal. And it's worth it. It's the last broom you'll... You give one as a gift. One for indoors. I'm gonna take it a step further. Sunrise is the surprise. We're gonna give you the second broom absolutely free right now while they last. You get the first one, a bonus broom. Absolutely. On carpeting, it works on carpeting. I'm gonna get to that. I'll tell you. If you have little youngsters, they're always eating something where they shouldn't be in front of the television. My little kid, that's all he does. Now

I'm gonna rub this in here. Nine out of ten hair salons use a rubber broom. They've been using these commercially for the last twenty two years. Lifetime guarantee. And I'll tell you what, you get two of them. Now when you use it on any other surface, linoleum, underneath cabinets type places, look at this. Between the toilet and the tub. Look at this. It's such a pleasure to do this. If it got any easier to do this, you'd have to sit back and watch it. You won't scratch your appliances. Exactly, and you can use it outside also. But here, on a carpeting. If you have a vacuum cleaner, if you have a small job those traffic areas, in fact, we're not telling you not to use a vacuum cleaner, but by the time you get I out of the closet, unroll the cord, plug it in. You want to use short strokes. Now you'll create static electricity. When the rubber hits the fibers of the carpeting it'll pick up the dog hair, the cat hair, broken glass, kitty litter, it doesn't matter. But you know what, it'll actually go deep down into the pile of the carpeting and restore the nap. Look at this. Use it as actually an upholstery brush. Take the broom off, in fact, use it on your clothing. As a lint brush, it's fantastic. I'm gonna go deep down in to the pile of the carpeting. I'll actually get those fine hairs that sometimes a vacuum will miss, and those are those ones right there. You see that. Now it'll work on ceramic tile. If I could just scoot down here a little bit. Ridiculous. It's a steal. Uneven surfaces. It's flexible. Not only the fingers are an inch long, they're flexible so they'll conform to any surface even outside. If you ever play tic-tac-toe with one of these in between the grouts. And you always lose because you never get anything. Look how it gets everything out, but here. Take it outside. The guys are always stealing the brooms from inside taking em' outside into the garage, and then they bring em' back in the house. Let me ask you this, Paul, how could you clean your house with something that's already dirty? You can't. Exactly. What you're doing is you can scrub grease and oil off a garage floor, squeegee it down the drain, I'm gonna get to that squeegee in a second here. But in cement patios, brick walkways. I tell you what. All the uneven surfaces. It does a terrific job on everything. Now back to this. I wanna show you real quick over here. Now, you can get it wet, you take the head of the broom off. Ya. You can put it in the dishwasher. OH ya, very hygienic. Hospitals use these brooms. Put it in the top rack of the dishwasher, run it under the tap with soapy water. My dishwasher Jaime, she loves it. She's out of town. You know what I wanna tell you, you can get it wet and clean with it. Now a lot of people scrub their floors, and especially with Christmas. You're gonna clean every nook and cranny, and a lot of people will get down on their hands and knees with a scrub brush. Here's what I'd like everybody to do. What you wanna do is this. Take a glass of water, fill it up all the way, put your soap or solution in there. Your bleach, drop it on the floor. In fact, that's not uncommon in your house. The little tykes at home. In fact, my grandmother used a sponge mop. She still was down on her hands and knees, but watch this. Use the three hundred and fifty fingers to scrub up the rust marks. Or maybe if you moved the refrigerator or stove, you have the rust marks. Or maybe that cowboy with the scuff marks coming over for the holidays. It'll scrub deep down in. Sponge mops or other mops they skim over the surface. Now here. A lot of people say what do you do with the water? Well, it's only a glass of water. If you can see this squeegee blade. In fact, it's a razor's edge on there. I'm gonna show you real quick, and we'll get right down here, okay. Watch this. Ladies and gentleman, what I do, the bathroom or the kitchen. You can scrub ceramic tile with it. You squeegee everything into one corner of the room, and Paul if you'll be my guest this time, and feel that. You know something, it's dry. You can actually wisk it into a dust pan. If you use one of these sponge mops... That's right. Aluminum siding, vinyl siding. If you have an Rv, a camper, a trailer, it's the best. On a boat, non-skid surfaces. You wanna do your windows on the inside or the outside. Well, it's guaranteed. If you break it, we'll replace it free of charge. He's the man, I tell ya.

Oxiclean

https://www.youtube.com/watch?v=LX-pEwI_Qfg&t=26s

Discover the power of oxiclean, the stain specialist. If you get a spill or a stain, nothing works better than oxiclean, especially on tough stains like grape juice. Look at this. Isn't that amazing? Mean the ones that have been through the wash and been through the dryer? Here's the solution. Pre-soak your clothes in oxiclean. It breaks down the stains without using harsh chemicals like chlorine bleach. Oxiclean is tough on stains. but gentle on fabrics. Add a scoop to every load of laundry. Give your detergent that extra power. Oxiclean will catch those everyday stains that you might have missed. And since there's no chlorine bleach, it's safe on colors. It's not just clean, it's oxiclean. Use it all around the house. You can count on oxiclean for pet messes. It not only gets rid of the stain, it eliminates the odor too. Now you can get the power of oxiclean in the convenience of a wipe. For life's little accidents, they're the best. Take em' everywhere. Oxiclean wipes prevent a spot from becoming a stain. Try oxiclean.

Didn't your mother ever teach you about oxiclean? It's the stain specialist. It's not just clean, it's oxiclean.

You call that clean? You call that clean? Wow, that's what I call clean. It's not just clean, it's oxiclean.

That soccer jersey, you call that clean? hmm? Now that's what I call clean. It's not just clean, it's oxiclean.

Zorbeez

https://www.youtube.com/watch?v=jMWvTP_LPHY

If you got a real mess, and want to clean like the pros, then you gotta see this. Hi, Billy Mays here with Zorbeez, the most absorbent material I've ever used. It has the strength and the muscle to pick up and hold over twenty ounces of liquid. Look at this. Zorbeez attracts liquid like a magnet. It doesn't matter if it's coffee, soda, even red wine. Watch as its powerful vacuum action pulls and cleans the stain from out of the carpet, just that quick. The secret's in the X-twenty-seven fiber technology, making zorbeez over twenty seven times more absorbent than cotton. Forget towels that just drip, and unlike sponges that smell, zorbeez is odor free, and leaves a path of clean. Now you can clean and dry, and never leave anything behind. You'll be amazed at just how much they absorb, and they're machine-washable. Dry your entire car, even your dog. Use any cleaner for streak free windows. An average family uses up to two rolls of paper towels every week. That's cash in the trash. Save money, and even help save the environment. Lint-B-Gone

<https://www.youtube.com/watch?v=Hx91GQndZJ8>

You dry your clothes and they're wet. You dry em' again, and they're still damp. Hi, Billy Mays here for the lint-b-gone, the ultimate dryer lint brush. The main reason your clothes are coming out damp is the buildup of lint that accumulates over time, causing your dryer to work a lot harder and longer, costing you money. The trap in your dryer is supposed to catch all the lint, but we all know a lot gets by. You can see it, but you just can't reach it. The lint-b-gone's flexible design allows you to go deep into the ductwork and pull out that unwanted lint that's clogging up your dryer. The secret to the lint-b-gone are the unique bristles specially designed to pick up the lint, dust, and hair and lock it in. If you could see inside your dryer, this is what you'd find. The buildup of lint around the electrical wires. And look at the lint that's already singed into the heating element. It's an accident waiting to happen. The slender design allows you to clean between your washer and dryer, underneath your dryer, and in those impossible to reach areas. Take it in the kitchen. Use it to clean the coil of your refrigerator. Underneath the fridge, and under your stove, as well. Special bonus: we'll also include the exhaust vent brush. It's designed to clean the exhaust vent of your dryer. So much more.

Quick Chop 2

https://www.youtube.com/watch?v=olfi02W_NfY

Hi, Billy Mays here for the Gourmet quick chop. It's the fastest, easiest, and safest way to chop, mince, or dice any vegetable guaranteed. Here's how it works. Just place the vegetable on the board, give it a tap, and you've got finely shredded cabbage in seconds. It even works on your toughest vegetables like your potatoes. Make home fries with just one tap. Chopping and peeling garlic used to be a chore, but not anymore. Quick chop peels it and chops it with just one tap. Keep tapping for freshly minced garlic. The secret's the six carbon-steel blades combined with the rotating act... It has the power to chop nuts, almonds, walnuts, pecans.

Oxiclean

<https://www.youtube.com/watch?v=u9HNaleAefU>

We're gonna make things really bad. You tell me when to stop. No, I need to hear ya. I can't hear ya. Fruit juice. Look at this. You know what. You always have the fruit juice. All the sugar it leaves a big stain. Now I put almost a whole bottle of the iodine in here. Watch this. The power of bleach, but safe. Oxiclean. It's like a white knight in shining armor right in your laundry. About a half a scoop. Watch this. Watch how whites will get whiter. Watch how the brights get brighter. This is not magic. This is oxygen being pulled out of the air. You know, your laundry, it takes a little bit longer because it goes through a cycle, but immediately it's gone. But you know what, you wanna see your husband, he's gonna love you. Look at this. I gotta tell ya. It's white again, it's bright again. Look at that. It's, you know what, and it doesn't hurt the material. Think about it. Oxiclean saves you money because your clothing that you spend so much on lasts so much longer.

Billy Mays - EZ Roller

<https://youtu.be/NEXI1d7hZSM>

Did your last painting project look like this? Spills, splatters, messy rollers and trays? What a disaster. Dump the tray, and do it the easy way. Hi, Billy Mays here for the easy roller. The fastest, easiest way to paint anything without the mess, guaranteed. With easy roller, you just pour and paint, and keep on painting. It's like having a full can of paint right in the palm of your hand. You can transform any ordinary room into a designer showplace in just minutes. With the easy roller, you can paint an entire room without stopping in half the time. The built-in reservoir automatically dispenses the perfect amount of paint to the roller for fast, one-coat coverage and professional results every time. For those rough surfaces, just turn the quick-flow valve, and instantly more paint is released to the roller for that same one-coat coverage on stucco, concrete, paneling, or brick. Take it outside to stain decks, paint fences, exterior doors, and garage floors. Easy roller makes it easy. Old fashioned rollers drip and splatter, and you're constantly up and down a ladder. The easy roller takes the mess work out of paint work. It never drips, it never splatters. You just paint, and keep on rollin.

Billy Mays - Kaboom (2001)

<https://youtu.be/hYsogDVw6Js>

Hi, Billy Mays here for Kaboom, the powerful restorer that's healthy for the home. Use it in the bathroom. Put the shine back in your shower. It dissolves calcium, rust, and hard water stains on contact. Kaboom breaks down the buildup on the shower head. It cleans, it restores, and it maintains. If you have ring around the tub, ring around the toilet, Kaboom restores without damaging the surface. For porcelain, tile, or grout, it's the best. The foaming sprayer shows where it goes. It gets rid of the black buildup on any colored tile on any colored grout. Instead of replacing it, clean and restore it with Kaboom. Other restorers tell you what not to use it on. Kaboom is healthy for the home. It has the power of an acid, but it's safe. Use it on garden shears, golf clubs, a rusty knife, rusty chrome, even an iron. Kaboom, and the rust is gone. It's safe to use on copper, brass, chrome. Kaboom, and the tarnish is gone. To replace this tub could cost hundreds of dollars. If you call now, you'll receive a whopping thirty-two ounces of the restore for just nineteen ninety-nine. We'll also include a bottle of our kaboom stain remover. Use it on carpets for set-in stains like coffee, tea, juice. It even wipes out pet messes. Kaboom works on furniture, car interiors, clothing, upholstery. As a prespotter, it's the champ. Kaboom, wash it, and the stain is gone. You get both bottles and we'll include a super shammy and a scrubber all for just nineteen ninety-nine, but call right now and you'll receive fourteen ounces of the instant spot remover absolutely free. It prevents a spot from becoming a stain. That means you get all this for just nineteen ninety-nine, but you gotta call now. Here's how to order.

Billy Mays - Genco Power Solutions (2006)

<https://youtu.be/guLKY0y3qK0>

hi i'm billy mays you've probably seen me on one of my tv commercials but i'm here today to talk to you about genco power solutions when you invest in a reliable guardian standby generator from genco power solutions for your home you're also buying peace of mind for you and your loved ones whatever the weather brings your way as a florida resident i know how serious this is for you and i eight hurricanes had a direct effect on florida during the 2004 and 2005 season leaving the state's power supply extremely vulnerable to future storms unfortunately weather experts agree that we're probably entering a cycle of increased hurricane activity in the coming years no one can know for sure what the next hurricane season will bring but we all know the anxiety of tracking a hurricane that's heading toward the sunshine state and dealing with its aftermath but what can you do now to ensure your family's comfort and security the next time the lights go out well you've already taken the most important step by contacting genco power solutions listen to one of our company experts

genco installs the guardian line of automatic standby generators the top selling brand in residential backup power

not surprisingly all of guardians air and liquid cool generators also comply with ul standards already meaning the new safety benchmark that all other generators will have to meet in the coming years besides safety and reliability guardian generators are also much quieter than the portable ones once installed by a genco factory trained technician guardian's powerful engine is on standby ready to work the moment you lose power here's how it works to simulate a power outage the main power is turned off the automatic transfer switch included in the installation senses the outage and signals the guardian

generator which automatically starts up and begins to power your home a process that takes only about 30 seconds the moment the power comes back on the transfer switch reroutes the connection back to the original external source and the guardian generator automatically goes back to standby

most importantly a guardian generator will keep your family safe security systems remain powered and the lights stay on discouraging would-be thieves from targeting your home and endangering your loved ones guardian automatic standby generators are fueled by safe clean burning lp or natural gas source to your home from an existing natural gas line or from an underground lp tank

genco's extended maintenance programs ensure your guardian generator will give you years of security while their staff of factory trained experts will keep your system operating at peak performance genco's flexible payment plans put a reliable automatic standby generator within every family's reach don't forget with genco your sales professional can provide you with multiple financing options and instant on the spot approval whether you have good credit bad credit or no credit as a homeowner no problem genco's professional finance department will give you the same on the spot instant approval i guarantee it keep in mind when it comes to the competition there is none at genco we not only sell you the generator we install it we maintain it and if it wasn't the highest the quality i wouldn't put my name on it don't let the next hurricane season catch you and your family unprepared go with the guardian generator from genco power solutions it's an affordable one-time investment that provides a lifetime of security no matter what size house you have big or small genco power solutions does it all at genco we'll keep the lights on for you

hi billy mays here did all the hurricanes leave you and your family in the dark millions in south florida were left without power now is the time to take action call genco power solutions now our installation dates are filling up fast as the hurricane season approaches reserve your standby generator today genco offers a complete line of fully automatic standby generators to power your entire home or business 24 hours a day automatically until now home generators have been priced out of reach for the average family for a limited time genco is offering on the spot financing with reasonable monthly payments that put a standby home generator within every family's reach that's right everybody so don't let the lights go out on your family again call genco today at 1-800-782-4979 that's 1-800-782-4979 genco is a division of at south partners stock symbol aspr that's 1-800-782-4979

Billy Mays: The OxiClean Show (1998)

https://youtu.be/VgCge6_f4B0

Hi, Kara. Thanks for having me. Hi, everybody. You better believe it. Well, first of all, these have all the chemicals, all the caustics, all the ammonia. See if you have family members with allergies or sinus problems, you can't work in tight areas. In fact, some of them it says you got to leave the room. The OxiClean is powered by the air you breathe and it's activated by the water that you and I drink. See, it's Mother Nature approved. It's Mother Nature's way of cleaning. See, we take the two most powerful forces in our universe, oxygen and water, and we combine them. See, we team them up with soda ash, which actually harnesses the power. So you unleash it with hot water. So it comes in a super concentrated crystal so you can make a little or you can make a lot. Now you put it into some hot water, see, powered by the air you breathe and activated by the water that you and I drink. Watch this. The best part of all. Look at this. You can even hear the crackling look at it pulling oxygen out of the air. Look at it. You better believe it. You know what? Forget the scrubbing bubbles. It's oxygen bubbles. The oxygen crystals are working. You know what? There is no smell. Take a whiff of this. There is no smell. Nothing. You don't have to leave the room. In actuality, it's the cleaner that works. So you don't have to.

Now, red wine is a nightmare. Some people will not serve red wine in their house because the white or the light carpeting. Watch this. It'll stain it for good. See, OxiClean, No problem with red wine. You know what? Coffee, gravy. Iodine. I want to tell you something. When you get a stain this bad in your carpeting, call a professional. Some professionals won't even touch it. But here's the problem. You can see what's on top. But underneath in your carpeting. See in the studio here, we can show you underneath. See if it goes down into the padding, into the matting. It starts to breed bacteria. It starts to rot the padding. It starts to smell. See, OxiClean gets rid of that smell. Not only gets rid of the stain and more importantly, gets rid of the odor, it doesn't mask it. Now, watch this. This is what I like about it. Now, how about a little bigger stain here? I want to say this could be an old stain, a pet saying, you know, for the pets, it is a must if you're training a little puppy. He'll never go back to that same spot. Watch this. Now, if all it did was take out that top layer, look at the magic, the power of oxygen. Look at this. It's taking it up. But you know what? It's attacking it. See, all oxiclean's attack, the organic stains, the pet stains. You know what you do? I put a little bit extra in there. Oh, you know what? I want to show you what's more amazing. It takes it from the top out of the padding, out of the matting. See if all it did was take out that top layer. It's paid for itself. But OxiClean, it keeps working over and over again.

Watch this The best part? Take the squirt bottle an eighth of a scoop right into the squirt bottle. You're going to love this. Watch this. Yeah. Now with my finger, I'm just going to pour a little bit on there. Look at it take it out of there, if you know what? I'm not even putting a lot on there. See, it's the cleaner that

works, so you don't have to. What I'm going to do is just take a terrycloth towel and look at this. It's like brand new. You know what? A lot more. You can use it everywhere. In fact, your carpeting, your upholstery. Use it in your kitchen, your bathroom. Laundry is one of the number one uses. It has the power of bleach, but it's safe.

Sometimes soaking is the solution. See, one pound of OxiClean will do 32 loads of laundry, 32 loads of laundry. Now you can let things soak. You better believe it. It's very convenient. That's great. It's power packed. Powered by the air you breathe, activated by the water to you and I drink. This is Mother Nature's way of cleaning the healthy way to clean. I'm going to put a little bit into this aquarium. We're going to show you that you can soak things. Actually, look at this. Look at the oxygen bubbles being pulled out of the air. No fumes. That's what I hate about bleach. The problem is you open up this bottle of bleach, you want to leave the room? Can you imagine what it does to your clothing? Now, sometimes what you could do is this. You could soak things overnight. How about if you're a smoker or, you know, a smoker? You know, smoking discolors everything. The sheers. You know what? It makes them yellow. Bleach will even do this. If you soak a lot of whites in bleach, it'll yellow, the material. Rot the material. Watch this. Watch the power of Mother Nature. Watch this. It goes right into there. And look at this. My hands are in there immediately. The OxiClean, remember? It knows only one thing to do. Attack stains, attack smells. That's all it does. Are these his pants? Was he safe when he slid into home? Oh, I got to tell you, you know, you take this. This will make your whites whiter. It will make your brights brighter. Now, you could put this right into your washing machine. But we have this big aquarium out here. We're going to show you the power of oxygen. Now, watch this. I'm going to make things worse. Now I'm going to put some coffee, some gravy. Now, if you ever get a red sock in with the whites, it ruined everything. Oh, yeah. It's a nightmare. But look at this. We're going to make things really bad. You tell me when to stop. No, I didn't hear you, I can't hear you. No, I can't hear you. I can't hear you. Fruit juice. Look at this. You know what, you're always had that fruit juice. You know, all the sugar. It leaves a big stain. Now, I put almost a whole bottle of the iodine in here. Watch this. The power of bleach, but safe. OxiClean. It's like a white knight in shining armor right in your laundry. About a half a scoop. Watch this. Watch how the whites will get whiter. Watch how the brights get brighter. This is not magic. This is oxygen being pulled out of the air. We know in your laundry it takes a little bit longer because it go through a cycle. But immediately it's gone. You know what? You want to see your husband. He's going to love you. Look at this. I got to tell you, it's white again. It's bright again. And you know what? And it doesn't hurt that material. Think about it. OxiClean saves you money because your clothing that you spend so much on lasts so much longer.

Look at this. This is what the bleach did to your jeans. Look at this. It's safe. It is a natural cleaner, powered by the air you breathe, activated by the water that you and I drink. Look at this one load of laundry. It's making you money. How much money do you have invested in your laundry? Could be 20, 30, 40. A couple hundred dollars. But look at these sheers, you remember? In just about 2 minutes time, they're white again. They're bright again. That's that color it's supposed to be. It won't. Yellow. The material like bleach does. It has the power of bleach, but it's safe.

Here is something that you have a lot of. We're talking big money. This could be the most precious day of your life. Maybe your daughter, your granddaughter. I know you're married. You know what? What if you spilled coffee or anything, right? You think I ruined that? That's lace and satin. Well, OxiClean. It only knows one thing to do. Attack the stains, but not hurt any of the good things. Look at this. Bam, it's gone. Look at this. The lace. The satin is taking it right out. A precious wedding dress you save a wedding. OxiClean is a miracle in a bottle. Look at that. That is unbelievable. Remember, anything that is color fast. Anything. It'll work on just about any material. Well, he's quite a guy, isn't he? Why? So I want to show

you. You get those grease stains. Well, I have a grease pencil here. Now, OxiClean takes out the organic stains. Let me show you something right there. Now, what I want to introduce to you right now is the orange clean Super eight concentrate. It's made with pure orange oil. And wait til you smell this? It's a natural degreaser. You smell that? You better believe it. I got to tell you, this is power packed also. This Super eight concentrate you dilute it or you can use it straight up. Watch this. I'm going to put a little bit right here, right on to this grease. Look how it breaks down, emulsifies, neutralizes the grease on contact. You wipe it right up. Great in the kitchen. We're going to show you that. But you know what? Here's how you even save even more money. Listen to me. This won't make one or two guess what won't make three or four. You know what you dilute into an all purpose cleaner that you use in every place in your house. Keep one in the car for the grease stains. I'll tell you what. Keep one in the bathroom. It's great for the soap scum. We're going to show you that later on. I'll tell you what, this makes a ton of this cleaners. You know what? Keep one. Ten bottles. I gotta tell you. Let me tell you. This is like a serum, super concentrated. You know what great cleaning products do grow on trees across America. And I want to show you one more thing. When you have shirts like this, you know, when I see the red, white and the blue, you know what I want to do? I want to salute everybody out there that gets OxiClean. God bless America. I'll tell you what. Watch this. You would actually you couldn't use bleach on this. Exactly. This is a big problem right here. Now what you do, you take the oxiclean. If it was grease, you use the orange clean, you get it now? Organic stains, grease stains. Watch this. Takes out look at this. I can use it even on my jeans that you ruined. If I had a look at that. I'm glad you asked. We have a spectacular offer. Come on into the kitchen. I want to show you this terrific deal. I'm so excited. You're going to love it.

Carol, let me show you what you get on today's show, in fact. One pound of OxiClean makes 32 gallons. That means it'll do 32 loads of laundry. It is power packed. In fact, if you get it right now on today's show, one pound is all you need. But here's what we're gonna do you're going to love OxiClean so much. We're going to more than double that. We're going to give you a two and a half pounds. This is a big. Oh, my goodness. This will do 75 loads of laundry. It'll make 75 gallons of a cleaner. That's natural. It's safe for you and your family. And here's the scoop to go along with it. To measure it out. You know what the scoop is. You know what? You're going to love, OxiClean. We're going to give you the squirt bottle. Right now. It'll make over 400 bottles of a cleaner. So you make a little or you can make a lot. Now, if you get it right now, we've been authorized to give you that orange clean, the Super eight concentrate. Remember, it's made with pure orange oil. It's going to make ten bottles of the all-purpose cleaner that you can use in every room in your house that's going to come along with the package. And it's a lot of time. You know what? You go to the grocery store, think about it. You would have to fill up a grocery cart twice. And you know what? All you're buying is toxic chemicals. Remember, family members with allergies or sinus problems? You know what? If you can't pronounce what's in it, get rid of it. I got to tell you something else. If you call in right now, this is what I decided to do. You're going to love it so much, especially in your laundry. It has the power of bleach, but it's safe right now. We're going to give you another one pound jar. Absolutely free. It'll make two of the 55 gallon drums of a natural cleaner, it's safe.

Well, for your oven, you don't want to use the oxiclean. You want to use the orange clean Super eight concentrate. Remember, Kara, this will make ten bottles of a tough acting degreaser. It's made with pure orange oil. You know, it smells terrific. And it's safe. It's all natural. Now we're going to show you when you need that muscle without the tussle. Come on here. You know, a lot of the ovens, they claim to be self-cleaning. But, you know, the door always gets to look like this. The baked on, the caked on grease. What I like to do is spray a little orange clean the smell. It's unbelievable. You know. Ya no fumes at all. You know what? You could take a little scrubby if you want. Look at this. It'll break down emulsify. Look at this. That simple, that easy. And you don't have to leave the room and you don't. It comes right off because it's natural. But watch this. The best part, it makes it squeaky clean. Even the windows. Listen. I

tell you something. If you're home on the range, you're going to love the orange clean Super eight concentrate. Remember, you can have one for the kitchen. One for the bathroom. Keep one in the car. On the stove. You know, you do a lot of cooking around the holidays or any day. You get that grease, the fat and the oil, you can use it on the stove. But while you're at it, the drip pans. Now we have a gas range here. You can use it on these chrome drip pans here, but these are the ones if you have an electric range, a lot of people will actually throw these away. But use the orange clean the tough acting degreaser. A stainless steel sink. It will shine like a mirror. Look at this. It's unbelievable. Look at that. I think your mother in law will be impressed. On the stove, above the stove. Look at this. This is the nice part about it. It cleans naturally. It smells terrific. How about above the stove that you know, because you're cooking, the grease is going upwards, it splatters everywhere. But, you know, with just one swipe, it comes out. Look at that. Terrific. So easy.

Now, this is my prescription for cleaning the grout. See, those are the stains that are caused by mold and mildew. I want to show you something. You want to make a paste? Now what you do is you put your OxiClean right into a small bowl add a little bit of water. It becomes ten times as strong, ten times as powerful. Now, on vertical surfaces, you can actually paste it right on there while you're in the shower. You can do this. You could take a little brush and you could just scrub it away. You can shower away with this. That's what I like about the mold and mildew is gone. And you know what else? That's for the tough stains. Now, look. Well, I want to show you these pebbly surfaces. If you have fiberglass, you know, uneven surfaces, squirt a little bit in there. Watch how it cleans. It brightens. It eliminates odors. Look at this. All in. Right now I tell you it works so you don't have to. That's what it does. OxiClean does nothing else but attack stains, attacks, odors. Now you want to use the orange clean and the OxiClean together. OxiClean for the organic stains. Now for the soap scum. If you have shower stalls with the glass doors, you know the soap scum, it's a nightmare. You can spray it right in there. See, they complement each other. They work great together. I call them the terrible two watch this all you do while you're in your shower. Look at this. Look at that. It's like brand new. I have to tell you something, that soap scum up around the chrome fixtures. It's beautiful. Look at this that. You know what? I got to tell you something. That's the way to go. Orange clean oxiclean. It's the best.

OxiClean. It's the cleaner that works so you don't have to.

Carol, let me show you. You know, I like to take the crystals. I like to put them into a bucket of water. You know, the hotter the water, the better. Now, the crystal, you can actually hear the oxygen going to work. Now, take, for instance, this piece of wood. It's dirty. It's weather beaten. When I put this into the OxiClean, look at it. Attack. Only the bad part of the wood. You know what? It's working. See, OxiClean only knows one thing to attack stains. To attack stains that are caused by mold and mildew. Now, you could do your aluminum siding, vinyl siding, your patio and lawn furniture. Let me show you if you have wicker wood, that's white. It needs to be bright again. I like to take the squirt bottle. Watch it attack this and look at this. Maybe you want to take a brush. But look at this. It cleans, it brightens. And it eliminates odors. All in one application. You know what? We've pretty much got it to brand new. But you know what? Here's what I want to show you now. We're going to start talking about the brickwork. Now, while we're at the bricks right here, start thinking above your fireplace. You know, the soot that's caused by the smoke. Now, watch OxiClean on this brick here that has all the dirt in here. Look at it. Bubbling action. See the bubbles? The oxygen bubbles. Go to work. Now, look at this. This it cleans. Look at that brick. It's almost like brand new again. But watch this. I like to do something even better. You know, you could do your deck. So a lot of people spend a lot of money on those red wood decks. They get weather beaten in the summertime. The winter causes a lot of stains, mold and mildew. If you're having a lot of barbecues, I like to take and put some into a bucket. You can use a deck brush. You can squirt a little bit

of OxiClean right onto the decks. But now go to work with the brush. You could use anything you want, any apparatus. But look at this. Look how I clean those decks like brand new. You take care of them. You know what. Maybe you're vertically challenged. You need to get that oxi power up high. Well, here I have the solution for you right here. Take one of these bug sprayers. You may have one at home right now. Hook it up to your garden hose. One scoop of OxiClean into the squirt bottle. Take off the squurter. Hook it right up to the hose. Now, you can use that oxygen power to reach up high for your aluminum siding, your vinyl siding, awning. Don't worry about the flowers and the plants. They're safe. Remember, it's Mother Nature cleaning right here. And you know what do your patio loan furniture. We cover that aluminum siding, your garage door, your awnings, your shutters, your downspouts. It doesn't matter. Any hard surface. Remember that board remember OxiClean only knows one thing to do to attack stains, to attack and keep working. Look at this. And remember, it doesn't hurt any of the good wood. It's like a white knight in shining armor. You're going to love OxiClean. It's the cleaner that works. So you don't have to.

Kara, I haven't shown you the jewelry. You take all your beautiful gold, your diamonds. It doesn't matter. You put it right into a bowl of water and look at the effervescent bubbles, the oxygen. Look at the dirt coming right to the top. Now, my chain has been filthy. I've been wanting to clean this. See I put my hands right in here. Look at that gold. Look at this shimmer. Look at the shine. And you know what? If it's safe enough on the jewelry. OxiClean is natural. It's even safe enough for the partial plates the dentures. I gotta tell you, you're going to love it just for that. And you know what? And don't forget, more importantly, your biggest investment that you have in your house is your carpeting. Take the squirt bottle. Whether it's old stains, pet stains, food stains, wine stains. Look at this. It. You know what? If it only takes out one stain, it's paid for itself. Amazing. You know what? It's the cleaner that works so you don't have to. You blot it up a little bit. You're done. And what about those collectibles? You know what, Beanie Babies, it doesn't matter. You know your child's favorite uh stuffed animal. Look at this. It's gone. You restore it. Sorry, buddy. But look at that. Now, what about tennis shoes? A big investment. You buy your kids, your grandkids, tennis shoes. You want to keep them white again? You know what I like about OxiClean? You know, if you stain them with whatever. Clay stains. Grass stains. I don't even take out the laces. Look at this. I just spray it right while it's in there. It's fast. White again. Bright again. And you know what? More importantly, if you only used OxiClean in your laundry, it's going to pay for itself over and over and over again. If you ever got a red sock with the white, it ruined everything. Watch this. Remember, it has the power of bleach, but it's safe. Look at this. A half a scoop in your laundry. Watch the power of Mother Nature. Watch how the whites get whiter. Watch how the brights get brighter. That's not magic. Remember, use it over and over and over and over again. I just want to say one thing to OxiClean and to Mother Nature. Thank you for creating a healthy way to clean. You better believe it. Thank you Kara for having me.

Billy Mays - Channels of Success (2005-06)

<https://youtu.be/9T8ppQYbJvk>

that's a huge value but you've got to call now here's how to order hi I'm Billy Mays you see me on TV over the years sharing many different products with you did you ever wonder how I got those products and how I was able to Market it to Millions do you have a product service or an idea and you want to take it to the next level and you want to Market it to Millions well we're going to show you how the man you're about to meet is one of the individuals that helped create the multi-billion dollar television shopping industry and he is responsible for generating over a billion dollars in sales earning him the title The billion dollar man his system has personally helped me achieve all of my successes I want to introduce you right now my friend and my mentor Bob circosta

good to see you

you never know you might have the next million dollar product service idea or invention

what have you got to lose come on out to our free seminar free free

Bob with your system it's amazing you don't have to have an original idea or invention you can simply improve upon an existing one take for instance a vacuum cleaner we improved upon it I was involved in the marketing of the Turbo Tiger over a million sold worldwide how important is patent pending

well here's another simple idea the hook enhance anybody could have thought of it but somebody else did 10 million sold worldwide and it's protected by a patent number

and how about this product they put a whole new meaning to cleaning with the steam buddy

well Bob I was at the largest houseware show in the world using your system it taught me how to look for unique features and benefits well one of the unique things about this juicer instead of cutting up the fruit I saw them they were putting in a whole Apple wow I thought that was a lot easier than the old-fashioned way also using your system I contacted the right people and they were able to distribute

this product get it in front of millions of people my friend Jack LeLanne now has sold over a million and a half Jack LeLanne power juicers

Bob ordinary people have extraordinary ideas
